

Casio Green Slim Series

The ideal replacement projectors

The Green Slim series is the perfect choice for those looking to upgrade their existing installed projectors. An industry-leading 2x optical zoom means that a Green Slim model will replace any installed projector seamlessly, without having to change the ceiling brackets. This will help to keep budgets under control and disruption to a minimum.

The Green Slim series offers brightness levels up to 3,000 ANSI lumens – more than enough for even a large, bright meeting room – and a choice of XGA & WXGA resolution. All models have HDMI connectivity, enabling the presentation of HD content. They're light and portable, so can easily be moved between rooms if required.

New features include:

- Logo transfer/ firmware update through Micro USB port
- Lower power consumption
- Made in Japan
