RPA series™

RPA ELITE™ INVERTED CUSTOM PROJECTOR MOUNT

A first-class upgrade to the RPA, the Elite Series minimizes installation time with a revolutionary design.

Independent Roll, Pitch and Yaw
For quick and precise image registration.

Quick Projector Connect/Disconnect
With convenient lamp and filter access on most projectors.
– Always maintains registration
– Disconnecting doesn't affect pre-set adjustments

PRODUCT FEATURE:
Centris™ Technology
– Self-adjusts to support different projector weights
– Enables effortless, fingertip positioning

Integrated Cable Management
Allows routing of cables through top of the mount without additional accessories.

PRODUCT FEATURE:
MicroZone™ Adjustments
For fast and precise projector registration, including flush-mount installations.

Custom Solution
Projector maintenance is easy by using a mount with a custom bracket.
– Easily replace filter or bulb on most projectors
– Allows proper ventilation
– Fits the contour of the projector for the lowest profile possible!

All-Points™ Security System
Exclusive locking hardware at all key connection points to protect against theft.
– Steel-into-steel design is more effective than other security systems
– Included at no additional cost!
– For additional RPA security, see the security accessories on page 31

PRODUCT FEATURE:
Q-Lock™ Integrated Security With Quick Release Lever
Provides enhanced security with an integrated key and lock system.

ALSO AVAILABLE:
RPA Elite without Q-Lock Integrated Security
All of the same great features, without the Q-Lock Security and Quick Release Lever. This version of the RPA Elite still provides a secure solution with Chief's All-Points™ System.

ORDERING OPTIONS

RPM-xxxx: All Points Security
RPMA-xxxx: Q-Lock Key Option A
RPMB-xxxx: Q-Lock Key Option B
RPMC-xxxx: Q-Lock Key Option C

FAQ

1. What mount do I order?

A *Chief's cross-reference chart will help determine which mount to order based on the projector model.*

2. Do I need a separate bracket?

A *The RPA Elite ships complete with an interface bracket.*

3. Do I need any special tools to operate the MicroZone?

A *No, use a standard #2 screwdriver to quickly align the projected image to the screen.*

4. How does Centris Technology make installation faster?

A *Centris allows you to easily align the projector to the screen with fingertip adjustments. When you let go of the projector, the image stays aligned to the screen.*

5. Do all Elite mounts include Q-Lock Security?

A *No. The standard version of the RPA Elite (RPM-xxxx) includes All-Points Security, for enhanced security order the RPA Elite with Q-Lock (RPMA, RPMB or RPMC).*

6. Can I order different key options for the Elite with Q-Lock?

A *Yes, simply add an "A", "B" or "C" to the catalog number to designate one of the key options.*

7. Are the projector brackets for the RPA and RPA Elite interchangeable?

A *The RPA and the RPA Elite use the same interface brackets. When ordering the RPA Elite with Q-Lock the interface brackets include different pre-installed hardware for enhanced security.*

HOW TO ORDER

1. *Determine which mount to order by looking in the cross-reference chart. For the most recent cross-reference chart, visit www.chiefmfg.com or call Customer Service at 1.800.582.6480 (domestic) or 952.894.6280 (international).*
2. *Decide if you need integrated security and choose any appropriate accessories needed for your installation.*
3. *Fax or e-mail your order to Customer Service at 877.894.6918 (domestic) or 952.894.6918 (international), or orders@chiefmfg.com.*
