

PU-Q1H8CS

1 to 8 HDMI to Single CAT6 splitter

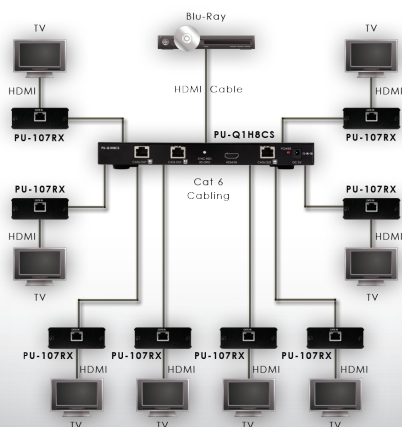

The PU-Q1H8CS has 1 HDMI input and 8 Single CAT6 outputs to simultaneously distribute a HDMI source to eight displays up to a distance of 40m. This solution is perfect for distributing the HDMI source content over longer distances than is usually achievable with HDMI cable, using cost effective CAT6 cable infrastructure.

Use the PU-107RX Single CAT6 to HDMI Receivers on each of the eight CAT6 outputs to convert back from CAT6 to HDMI for connection to the display/s.

FEATURES

- v1.3 HDMI, HDCP 1.1 and DVI 1.0 compliant
- 1 to 8 HDMI to single CAT6 splitter
- Resolutions supported: PC - VGA to WUXGA; HDTV - 480i to 1080p plus 1080p24fps
