

Epson EB-1410Wi [240v]

DATASHEET

With Epson's new meeting room series, one piece of equipment does the job of three or four. This 3,100-lumen model combines the roles of ultra-short-throw projectors, interactive whiteboards and paper flipcharts in one multi-purpose, integrated system. Simple and straightforward to use, the EB-1410Wi has an intuitive user-friendly on-screen toolbar, and advanced features for flexible presenting.

Connecting the EB-1410Wi to a computer, users can operate computer software with the interactive pens in the same way as a mouse, and can also digitally annotate the projection. With up to a 100-inch screen-size, a multi-source video conference and presentation can be displayed in split-screen, without compromising on image size.

Advanced features including Wi-Fi interactivity and dual pen operation, help boost the meeting creativity. The same image can be annotated remotely, with the multi-location function enabling up to four networked projection systems to be connected at the same time.

PC-free interactivity lets users annotate projections from a range of devices, such as an Epson visualiser or a USB memory stick, without connecting to a PC. Smart devices and tablets are also easily connected using the iProjection application.

In whiteboard mode, previous meeting notes can be loaded and revised, or new notes taken. The EB-1410Wi has capacity for up to 50 pages per meeting and user-friendly tools such as 'undo' help rectify mistakes instantly. Notes can be saved or shared via office networks, USB, or email. Compatibility with office printers¹, such as the Epson WorkForce Pro series, means notes are easily printed too.

The EB-1410Wi comes with high security protocols² for wireless and USB access can be disabled to comply with corporate information security policies.

KEY FEATURES

- 3,100 lumens White Light Output and 3,100 lumens Colour Light Output
- Multi-purpose integrated device
- Save, edit, share meeting notes
- Combines several meeting functions
- Simple set-up and no training needed
