

# Cable Cubby Series/2

NEXT GENERATION  
CABLE ACCESS ENCLOSURES  
FOR AV CONNECTIVITY &  
AC POWER

- ▶ Accommodates AC power outlets, Retractors, AV cables, and AAP - Architectural Adapter Plates
- ▶ Patent-pending modular design for fast assembly and serviceability
- ▶ Retractor, Cable Pass-Through, and AAP Brackets included
- ▶ AC Power and AC+USB Power Modules available for US, Europe, and other major world markets
- ▶ Choice of enclosure sizes and finishes to fit any room decor or furniture style

Elegant Cable Management Solutions  
for High-Profile Environments

**Extron Electronics**  
INTERFACING, SWITCHING AND CONTROL

# Introduction

The Extron **Cable Cubby® Series/2** is the next generation of Cable Cubby cable access enclosures, the AV industry's gold standard for conference table AV connectivity, AC power, and cable management. These sophisticated yet durable, furniture-mountable enclosures are available in four sizes and blend seamlessly with modern furniture and room décor, virtually disappearing into the surface when closed. Cable Cubby Series/2 models include:

The **Cable Cubby 500**, a compact enclosure for single-user applications, that accommodates one AC power module and up to three Retractors, four AV cables, or two AAPs - Architectural Adapter Plates.

The **Cable Cubby 700**, a mid-size enclosure for one or two users that accommodates one AC power module and up to six Retractors, eight AV cables, or four AAPs.

The **Cable Cubby 1200**, a slim, low-profile enclosure ideal for use in smaller tables, desks or study carrels, lecterns, and other work environments where surface space is at a premium.

The Cable Cubby 1200 accommodates one AC power module and up to four Retractors, eight AV cables, or three AAPs.

The **Cable Cubby 1400**, a unique double-sided enclosure ideal for use in applications where a centrally located enclosure is required to provide convenient access to AV connectivity and AC power from either side of a table or other work surface. Each side of the enclosure accommodates one AC power module and up to four Retractors, eight AV cables, or three AAPs.

## AC Power Modules Available for All Major World Markets

Cable Cubby Series/2 AC Power Modules are available for the US, Europe, and other major world markets. Most **AC 100 Series** AC Power Modules provide two

AC+USB 222 US

unswitched AC outlets. To support the charging of smartphones, tablets, and other mobile devices in AV presentation environments, the optional **AC+USB 200 Series** Power Modules provide one or two AC power outlets, plus two 5 VDC USB power outlets with 2.1A / 10.5 watts of total power.

## Engineered for Fast Assembly and Installation

The versatile Cable Cubby Series/2 enclosures are engineered for fast assembly and installation on the job site. A simple, elegant integrated clamp system secures the enclosure to the furniture surface without the need for tools or additional parts. The enclosures are also equipped with lid dampers for smooth, quiet operation. The patent-pending modular design allows the convenient installation or replacement of AV cables or AAPs from the top of the enclosure after installation.

The Cable Pass-Through Plate features a one piece, split-ring design that facilitates cable installation while eliminating the need for separate cable grommets. The AAP Plate also features a single-piece design that can be pre-populated and cabled before installation within the enclosure. Cable Cubby Series/2 enclosures are available in a black anodized or brushed aluminum finish to complement any room or furniture style.

# Overview

## Patent-pending modular design

For fast assembly and serviceability, AV connectivity can be installed or serviced from the top of the enclosure, after it is installed.

## AV connectivity

Enclosures include brackets for mounting Retractor or Retractor XL cable retraction modules, AAP - Architectural Adapter Plates, or AV cables to the left or right of the AC module. Optional bracket kits allow the AC power module to be mounted in the center of the enclosure for additional flexibility in configuring AV connectivity.

## Supports a wide range of cable management applications

Four Cable Cubby Series/2 cable access enclosure models offer a variety of sizes and configurations to support your cable management application.

## Choice of AC-only or AC+USB Power Modules

AC-only or AC+USB Power Modules are available for the US, Europe, and other major world markets. The available AC+USB modules feature two 5 VDC USB power outlets and up to 2.1 A / 10.5 watts of power for charging mobile devices.

Cable Cubby 1200

## Choice of black anodized or brushed aluminum finish

The top surface of Cable Cubby enclosures is designed to blend seamlessly with modern furniture and room decor.

## Low profile lid with full width cable pass-through

Provides convenient access to AV cables and AC power, whether open or closed.

## Integrated lid damper

Lid dampers provide smooth, quiet operation, gently easing the lid into its open position.

Cable Cubby 1200

## Integrated side clamps

A unique clamp mechanism secures the enclosure to the furniture surface without the need for tools or additional parts. Simply swivel the clamp into position and lock it in place.

### Series/2 Cable Access Enclosure for AV Connectivity and AC Power

**Enclosure Type:** Compact

**Capacity:** One AC power module +  
One Connectivity Bracket

**Features**

- Accommodates one Series/2 AC or AC+USB Power Module, plus three Retractors, four AV cables, or two AAP-Architectural Adapter Plates
- Includes one set of Retractor, Cable Pass-Through, and AAP brackets
- Choice of black or brushed aluminum finish
- Dimensions: 6.1" W x 6.1" D x 6.7" H (15.6 cm W x 15.6 cm D x 17 cm H)

Model	Version Description	Part Number
Cable Cubby 500	Black-with US AC Power Module	60-1404-02
Cable Cubby 500	Black-AC Module Not Included	70-1045-02
Cable Cubby 500	Brushed Aluminum-AC Module Not Included	70-1045-08

## Cable Cubby® 700

### Series/2 Cable Access Enclosure for AV Connectivity and AC Power

**Enclosure Type:** Mid-size

**Capacity:** One AC power module +  
Two Connectivity Brackets

**Features**

- Accommodates one Series/2 AC or AC+USB Power Module, plus up to six Retractors, eight AV cables, or four AAP-Architectural Adapter Plates
- Includes two sets of Retractor, Cable Pass-Through, and AAP brackets
- Retractor, Cable Pass-Through, and AAP brackets can be combined with the enclosure to meet a variety of connectivity needs
- Choice of black or brushed aluminum finish
- Dimensions: 7.5" W x 6.1" D x 6.7" H (19.2 cm W x 15.6 cm D x 17 cm H)

Model	Version Description	Part Number

# Series/2 Power Modules

## AC 100 Series

### AC Power Modules for Cable Cubby Series/2 Enclosures

The Extron AC 100 Series AC Power Modules are available with discrete AC power outlets for the US, Europe, and other major world markets. Most AC 100 Series power modules feature two unswitched AC power outlets; the South Africa module provides one switched AC power outlet. AC 100 Series power modules are UL/c-UL listed and CE compliant when installed.

#### Features

- Designed to work with Cable Cubby® Series/2 enclosures
- Most versions feature two unswitched AC power outlets
- South Africa module provides one switched AC power outlet
- Multi-Region AC outlet is compatible with a variety of AC plug types

Model	Version Description	Part Number

## AC+USB 200 Series

### AC+USB Power Modules for Cable Cubby Series/2 Enclosures

The Extron AC+USB 200 Series Power Modules feature one or two unswitched AC power outlets, and two USB power outlets that provide +5VDC and up to 2.1A / 10.5 watts of USB power for charging mobile devices such as smartphones and tablets. The USB power outlets can deliver full power to either USB outlet when only one device is connected. An energy-efficient external universal power supply is included for the USB outlets. AC+USB 200 Series power modules are UL/c-UL listed and CE compliant when installed.

#### Features

- Designed to work with Cable Cubby® Series/2 enclosures
- Most versions feature one unswitched AC power outlet
- Provides two 5 VDC USB power outlets and up to 2.1 A / 10.5 watts of power for charging iOS and Android phones or tablets
- UL/c-UL listed and CE compliant when installed
- Energy-efficient external universal power supply included for USB charger

## Retractor Series/2

### Cable Retraction System for Cable Cubby® Enclosures

The Extron Retractor Series/2 is a patented, variable-speed cable retraction and management system designed to work with Cable Cubby®, Cable Cubby Series/2, and TouchLink Cable Cubby cable access enclosures. Retractor Series/2 modules are available to support most AV and data signal types, including HDMI, DisplayPort, VGA, Network, PC Audio, and USB. Cables extend up to five feet (152 cm) and are held securely in place at the desired length. The cables retract at the press of a button, with integrator-adjustable retraction speed control for smooth operation in both horizontal and vertical mounting orientations.

#### Features

- Holds cable securely in place at a user-defined length
- Simple push-button release retracts cable into Cable Cubby enclosure after use
- Available in a variety of commonly used AV and data connectors
- Retractor DC extends DC power for many Dell, HP, and Compaq PCs
- Optional horizontal mounting bracket supports up to three Retractor modules
- Optional filler modules available

#### AVAILABLE RETRACTOR SIGNAL TYPES

## Retractor Series/2

### Cable Retraction System

#### Unique Feature

- Cables extend up to 3 feet (90 cm)
- Provides 6 foot (1.8 m) pigtail for connecting to other AV products

Model	Version Description	Part Number
Retractor Series/2 VGA	VGA; 3 feet (90 cm)	70-1065-01
Retractor Series/2 PC Audio	3.5 mm Stereo Audio; 3 feet (90 cm)	70-1065-02
Retractor Series/2 Network	Network CAT6e; 3 feet (90 cm)	70-1065-03
Retractor Series/2 HDMI	HDMI; 3 feet (90 cm)	70-1065-04
Retractor Series/2 USB	USB A to USB A; 3 feet (90 cm)	70-1065-05
Retractor Series/2 DisplayPort	DisplayPort; 3 feet (90 cm)	70-1065-07
Retractor Series/2 DC	DC Power Extension: Dell, HP, other PCs; 3 feet (90 cm)	70-1065-10
Retractor Series/2 VGA-A	VGA & Stereo; 3 feet (90 cm); 3 feet (90 cm)	70-1065-11

## Retractor Series/2 XL

### Extended Length Cable Retraction System

#### Unique Feature

- Cables extend up to 5 feet (152 cm)
- Provides 4 foot (1.2 m) pigtail for connecting to other AV products

Model	Version Description	Part Number
Retractor Series/2 XL VGA	VGA; 5 feet (152 cm)	70-1066-01
Retractor Series/2 XL PC Audio	3.5 mm Stereo Audio; 5 feet (152 cm)	70-1066-02
Retractor Series/2 XL Network	Network CAT6e; 5 feet (152 cm)	70-1066-03
Retractor Series/2 XL HDMI	HDMI; 5 feet (152 cm)	70-1066-04
Retractor Series/2 XL USB	USB A to USB A; 5 feet (152 cm)	70-1066-05
Retractor Series/2 XL DisplayPort	DisplayPort; 5 feet (152 cm)	70-1066-07
Retractor Series/2 XL DC	DC Power Extension: Dell, HP, other PCs; 5 feet (152 cm)	70-1066-10
Retractor Series/2 XL VGA-A	VGA & Stereo; 5 feet (152 cm)	70-1066-11
Retractor Filler Module	Filler Module	70-678-08
Retractor Horizontal Bracket Kit	Holds 3 Retractors	70-678-00

# Optional Accessories

## Optional Connectivity Brackets

### For Cable Cubby® 1200 and Cable Cubby® 1400

For design flexibility, optional small mounting brackets in Cable Cubby 1200 and Cable Cubby 1400 enclosures allow Retractors or AV cables to be mounted to the left and right of the selected AC Power Module. Each Cable Bracket supports up to four AV cables. Each Retractor Bracket supports up to two Retractor or Retractor XL cable retraction modules. The bracket kits are sold in pairs.

Model	Version Description	Part Number
Cable Bracket Kit - Small	Four AV cables per bracket;sold in pairs	70-1040-01
Retractor Bracket Kit - Small	Two Retractors per bracket;sold in pairs	70-1040-02

Cable Bracket Installed in Cable Cubby 1200

## CableCover™

### Under-Table Cable Bag for Cable Cubby Series/2 Enclosures

The Extron CableCover is a durable, fitted bag that mounts below most Cable Cubby Series/2 enclosures. When installed, CableCover improves under-table cable management and aesthetics, minimizing cable tangles and preventing accidental disconnections. CableCover is 19" (48cm) deep, providing ample room for up to eight AV cables. Simple pass-through openings at the top and bottom of the bag facilitate cable installation and connection with both surface- and floor-mounted AV products. CableCover is available in black and includes a roll of self-adhesive, hook-and-loop tape for mounting to the enclosure.

MODEL	COMPATIBLE	NOTES

## CABLE CUBBY BUILDER

The Extron Cable Cubby Builder, available online at [www.extron.com/cable-cubby-builder](http://www.extron.com/cable-cubby-builder), is an interactive, drag-and-drop, online tool for designing and customizing Cable Cubby Series/2 Cable Access Enclosures for AV Connectivity and AC Power. After selecting the Cable Cubby enclosure and finish, users can easily add power, Cables, Retractors, Architectural Adapter Plates – AAPs, and optional accessories. As you build your Cable Cubby, a bill of materials is prepared automatically, and when you're done, the Builder allows you to review your Cable Cubby and make any last minute changes before placing your order (dealer login required).

# Cable Cubby 202

The Extron **Cable Cubby® 202** is a compact cable access enclosure with one fixed, unswitched AC outlet and a removable Cable Pass-Through Bracket that accommodates up to four AV cables. The modular design allows cables to be installed or serviced from the top of the enclosure, after it's installed. Optional bracket kits are available to support up to three Extron Retractor cable retraction modules or two single-space AAPs for alternate connectivity needs.

For ease of installation, the Cable Cubby 202 features a hidden, integrated clamp system that quickly secures the enclosure to the furniture surface with common hand tools. The tilt-up lid is held open by a small magnetic catch, facilitating use of the Cable Cubby 202 in both horizontal and vertical mounting orientations. When closed, the lid provides a single, full width cable pass-through.

The Cable Cubby 202 is available with AC outlets for the US, Europe, and other world markets. The US model also includes an opening for one MAAP - Mini Architectural Adapter Plate, such as a momentary switch or USB pass-through connector. The Cable Cubby 202 is available in a durable black powder coat finish.

## KEY FEATURES

- ▶ Includes one unswitched AC power outlet and Cable Pass-Through Bracket for up to four AV cables
- ▶ UL/c-UL listed and CE compliant
- ▶ Hidden, integrated clamp system secures the enclosure with common hand tools
- ▶ Tilt-up lid and full-width cable pass-through for convenient access to AV and power
- ▶ A magnetic catch holds the lid open in any orientation
- ▶ Unique, split-ring bracket design allows cables to be installed or serviced from the top of the enclosure, after it's installed
- ▶ Optional Retractor and AAP - Architectural Adapter Plate Bracket Kits also available
- ▶ US version also accommodates one single-space MAAP - Mini Architectural Adapter Plate; sold separately
