### Smart-View Screen System

Assembled in minutes, no other screen offers the stylish simplicity of Harkness Screens' Smart-View.

Providing a totally professional appearance, the lightweight frame hangs from a simple rail - perfectly flush to the wall.

Smart-View is suitable for both front and rear projection systems.

### Application

Smart-View screens are recommended for:

- Board Rooms, Corporate Information Suites, Reception areas and other prestige business locations.
- Smaller Viewing Theatres, Visitor Centres, Museums and other select presentation venues.

### Construction

Smart-View frames are constructed of lightweight extruded aluminium sections.

Finish options are non-reflective black powder coated or black velour cloth.

### Assembly

Frames are supplied flat packed for self-assembly complete with surface choice as ordered. Fixing rail supplied (but not screw fixings).

### Choice of Screen Surface

The Smart-View screen surface is fastened to the reverse of the frame using 3M™ Dual Lock™ to provide a perfectly flat viewing surface.

Front projection surfaces available are:

- Matt Plus (Matt White)
- Matt Preview
- Perlux 140/180 Gain
- High Contrast Grey for LCD/DLP projectors
- Spectral 240 for 3D

Either non-perforated or perforated.

Rear projection surface available is:

- RP230

Please refer to Screen Surface Data Sheets for full description of screen surfaces.
