CP-WX8265 LCD Projector

Easy to use installation projector with advanced features, 6,500 ANSI lumens brightness and WXGA 1280 x 800 resolution in a low profile design.

Key Features

- WXGA resolution and 6,500 lumens white/color output
- Accentualizer advanced image processing
- Picture by Picture and Picture in Picture
- Two speed motorized zoom, focus and lens shift control
- HDMI 2 inputs
- 20,000 hours hybrid filter*
- 2,500 hours lamp life (Eco mode)**
- 360° display rotation

1.800.HITACHI dmd.info@hal.hitachi.com hitachi-america.us/projectors

Hitachi's installation-friendly CP-WX8265 LCD projector is designed to provide maximum presentation impact in mid to large venue applications. It offers a versatile array of innovative, performance-enhancing features along with advanced video display technology providing bold, brilliant colors with incredible image clarity and uniformity. Plus, with motorized zoom, focus and superior lens shift, and a variety of lens options, the CP-WX8265 is at the top of its class when it comes to installation flexibility. With a tough magnesium die cast body, the CP-WX8265 is one of the most durable projectors available today. All this, and with a lower cost of ownership. For added peace of mind, Hitachi's CP-WX8265 is also backed by a generous warranty and our world-class service and support programs.

CP-WX8265

UNIQUE FEATURES

Accentualizer

Accentualizer is advanced image processing technology which enables you to show a clear picture even in high ambient lighting environments. Accentualizer technology achieves superior image clarity by enhancing sharpness, gloss and shade.

Center Lens Design

This feature makes it easy to align the projector with the center of the screen for faster and trouble-free setup.

DICOM® Simulation Mode

Images in DICOM (Digital Imaging and Communications in Medicine) Mode are reproduced with an advanced grayscale level. This mode is ideal for viewing grayscale medical images such as X-rays, and for training and educational purposes. These projectors are not approved medical devices. They should not be used for actual medical diagnosis.

Motorized Zoom, Focus and Lens Shift Control

Allows for greater range of installation possibilities. With the 2 speed motorized function you can make fine adjustments through the remote control or RS232/IP device.

Multiple Lens Options

There are a variety of lenses to use for this projector, all providing specified projector brightness! In addition to the one ML703 middle throw standard lens, four optional lenses are available: FL701 fixed, SL702 short throw, LL704 long throw and UL705 ultra-long throw.

Perfect Fit 2

Enables the user to adjust individual corners and sides independent of one another. Perfect Fit 2 provides vertical and horizontal digital correction of either barrel or pin cushion distortions. This feature helps correct geometric and complicated distortions. Perfect Fit 2 allows the projected image to fit correctly to the screen quickly and easily.

Picture By Picture

Enables the content from two input sources to be displayed simultaneously, side by side on one screen. You can use any two sources including 2 HDMI, with both images sharing equal screen size. The feature is ideal for teleconferencing applications.

Picture In Picture

Enables you to display one image inside another image using any two sources including 2 HDMI.

Projector Quick Connection iPad[®] App

Our iOS application offers full projector control and also provides the capability to display photos, document files and web site contents. Available for iPad® and iPhone® devices. Works over your LAN via your RJ-45 port or via an optional USBWL11N wireless adapter.

Actual filter life will vary by individual filter and based on environmental conditions, selected operating mode, user settings and usage. Hours of average filter life specified are not guaranteed and do not constitute part of the product warranty

Actual lamp life will vary by individual lamp and based on environmental conditions, selected operating mode, user settings and usage. Hours of average lamp life specified are not guaranteed and do not constitute part of the product or lamp warranty. Lamp brightness decreases over time.

360° Rotation

Display rotation of 360° for creative applications and greater installation flexibility.

With Hitachi's status monitor, you'll have

Status Monitor

access in real time to projector diagnostics. Status updates include configuration information, maintenance history, as well as error and alarm messaging. For even greater user convenience, the status monitor can be accessed on the rear input panel or through the Hitachi network tools software.

Wired and Wireless Switcher Solutions

Multifunctional switcher operates in conjunction with the receiver to provide expanded source selection and switching options for connected devices. The switcher is sold as an optional accessory that can provide 1080p 30 fps wireless via WHDI for both video and audio.

STANDARD FEATURES

Security

Network Control, Maintenance and

Embedded networking gives you the ability to manage and control multiple projectors over your LAN. Features include scheduling of events, centralized reporting, image transfer and e-mail alerts for reactive and routine maintenance.

PC-Less Presentation

By using a USB memory stick or other storage device, you can use the projector without a computer. Menus are easy to see with a thumbnail display. Additionally there is also a slideshow function.

PJMessenger

PJMessenger function allows you to send and display text messages and audio alerts on your networked projectors. It is an easy and efficient way to send announcements out to multiple units.

Power Saving Standby Mode

Power saving mode reduces the standby power consumption to less than 0.35W.

Present Content via LAN

Hitachi's suite of networking software allows you to easily send content directly from your PC to the projector via your LAN connection.

Wireless Presentation Compatible

Connect the projector to a a computer or your network using the optional USB wireless adapter (part number USBWL11N). The adapter supports IEEE802.11b/g and the latest 11n.

HITACHI **Inspire the Next**

Quality, reliability and installation convenience.

From mid-size to very large auditoriums and conference halls, Hitachi's CP-WX8265 LCD projector is the perfect solution. With 6,500 ANSI lumens brightness and WXGA 1280 x 800 resolution, the CP-WX8265 will deliver dynamic images guaranteed to dazzle any audience. Incorporating Hitachi's leading-edge technology, the CP-WX8265 features Hitachi's Accentualizer for advanced image processing, long lamp life, a variety of lens options to accommodate your specific application, and is

wireless presentation compatible. Plus, embedded networking gives you the ability to manage and control multiple projectors over your LAN (scheduling of events, centralized reporting, image transfer, and e-mail alerts). Even with the array of advanced features, Hitachi's CP-WX8265 is designed for userfriendly operation and installation convenience.
