

High-value 1080p projection without shadow interference

The InFocus IN118HDSTa projector combines short throw, high brightness and low cost – making it perfect for classrooms, offices or tight spaces like trade show booths.

This value-packed projector is easy to buy and built to perform with HD image quality, high contrast ratio, long-life lamp, and multiple ways to connect, including HDMI. Plus, the short throw lens reduces shadows, prevents light from shining in the presenter's face, and saves space.

IN118HDSTa

1080P
(1920 x 1080)
2700 LUMENS
0.52 THROW RATIO

Why choose the IN118HDSTa?

- Ultra-low purchase price
- High brightness and high contrast ratio
- Short throw for big images in tight spaces
- High 15000:1 contrast ratio
- Compact and light weight for easy portability
- Accurate and vivid color reproduction with BrilliantColor™ technology
- HDMI connectivity
- Blu-ray 3D capable (over HDMI)

High Brightness and High Contrast

The image quality of this projector will not disappoint. 2700 lumens will give you bright, clear images with the lights on and the high 15000:1 contrast ratio adds sharpness with darker blacks and whiter whites.

You can also instantly dim the projector with the remote control to divert your audience's attention onto you and extend lamp life.

The short throw lens gives you big images in tight spaces and prevents light from shining in the presenter's face.

3D

The IN118HDSTa supports multiple forms of 3D – including HDMI, Blu-Ray, 3D broadcasting, video games and PC connectivity. All your audience needs are 144Hz DLP Link 3D glasses to seamlessly synchronise with the image for an awesome 3D experience.

Eco Blanking Saves Money

Instantly dim the screen to divert your audience's attention onto you with the Eco Blanking feature on the remote control.

Activate this feature when the projector isn't being used and lower the lamp's power usage down to 30%. This saves energy and significantly extends the life of the lamp, which saves you money.

Lowest Total Cost of Ownership

The IN118HDSTa is not only the lowest priced 1080p projector we've ever offered, but its lamp can last up to an amazing 10,000 hours. There aren't even any filters to replace. It's an unbeatable value.
