

HDMI-TPS-TX86, HDMI-TPS-RX86

Part No: 91540086 (TX86), 91540087 (RX86)

TPS extender for single CATx cable

HDMI-TPS-TX86

HDMI-TPS-RX86

HDMI-TPS-TX86 and HDMI-TPS-RX86 twisted pair HDBaseT™ extenders provide extension of **uncompressed Full-HD video** for long distances over a single CATx cable. The unit offers **bi-directional RS-232, IR pass-through** on the same CATx cable that carries the video signal. The TPS extenders support **full HDCP and EDID compliance** and work at all standard AV resolutions up to 4K and 48-bit color depth handling all standard audio formats and also 120 Hz 3D signals. **Remote powering** is available through a single CATx cable, but a local power supply can also be used. All devices can be mounted on a rack shelf or used standalone.

The Auto operation mode allows the device to detect the far end extender's mode and adopt it. If the far end device is in Auto mode or it is a third party HDBaseT™ device the link will be set to HDBT mode. If the far device is in forced **Long Reach Mode** then the auto operation will set the Link to Long Reach Mode.
