

W501

DLP® Projector

A Powerful Performer

5000 Lumens, WXGA Resolution

Installation flexibility - Vertical Lens shift,
1.5x Optical Zoom

Ultimate Control - Full support for Crestron, Extron,
AMX, PJ-Link and Telnet LAN commands

Extensive features - Full 3D,
PC-Free / LAN Presentations

W501

High brightness, excellent connectivity and amazing colours ensure the Optoma W501 Widescreen HD Ready projector is the perfect choice for any large venue or conference room.

Exceeding the demands of 21st century, the W501 is packed with wide array of features to make presenting both easier and more exciting than ever before...

The environmentally friendly W501 has energy saving features including Eco+ lamp power management, <0.5W standby mode and auto power off, saving you both time and money. Our unique Optoma Colour Guarantee ensures hassle-free, long-lasting projection.

EFFORTLESS PRESENTING

Enjoy hassle-free presenting using the USB Reader to project a JPEG presentation directly from a USB flash drive.

Alternatively view up to 4 PC/Laptops side-by-side at the same time, using the free Optoma Presenter software...

...or even broadcast your presentation across a wired/wireless network to as many as 8 projectors simultaneously.

Wireless support requires the optional Optoma mini-WiFi dongle accessory, available separately.

DICOM SIMULATION MODE

Designed specifically for larger meeting rooms and lecture theatres, the W501 includes a special DICOMsim mode that has been specially tuned for viewing greyscale images, perfect for viewing X-rays and scans during medical training.*

*The W501 is not suitable for use in medical diagnosis.

3D TECHNOLOGY

Using the inherent speed of DLP® technology, Optoma Full 3D projectors can output video and images at an astonishing rate of 120Hz, allowing you to show full screen, full colour, stereoscopic 3D. The 3D effect is generated by splitting this signal into two standard video streams, one for each eye. Using DLP® Link™ technology, the 3D glasses synchronise with the image on screen to filter each stream to the correct eye. Your brain then combines the two streams to make them jump into life.

The W501 supports multiple 3D formats from various devices such as PC, Blu-ray 3D™, Sony® PS3, Microsoft® Xbox 360 or 3D TV broadcast systems.

TRUE WXGA RESOLUTION

Documents and presentations will appear as sharp and detailed as they do on your widescreen laptop in WXGA (1280 x 800) resolution, which also gives you 30% more pixels than an equivalent XGA projector.

XGA

WXGA

EXTENSIVE CONNECTIVITY

This HD Ready projector accepts a wide variety of computer and video input signals. Connectivity includes: HDMI, DVI-D, dual VGA (Component via adaptor), S-Video, Composite, USB Reader, VGA-Out, RS232, RJ45 and +12V trigger. In addition the optional Wi-Fi accessory can be securely connected to a dedicated hidden USB port.

Five audio inputs for HDMI, PC, video and microphone sources enable the W501 to function not only as an audio switcher and volume controller, but also as a basic PA system for larger meeting rooms; thereby eliminating complicated and costly additional audio hardware and cabling.

EASY INSTALLATION - 1.5X ZOOM AND LENS SHIFT

The W501 can project a 100" diagonal image from any distance between 3.12m to 4.67m. The Lens Shift system can be used to adjust the vertical position of the projected image within the range detailed in the diagrams below. When replacing existing projectors, the 1.5x zoom and Lens Shift systems greatly increase your installation flexibility.

CLEAR, FOCUSED IMAGES

DarkChip3™ from Texas Instruments, combined with Eco+ dynamic lamp technology produce a stunning 15,000:1 contrast ratio for pin sharp graphics and crystal clear text. Crisper whites, ultra-rich blacks makes images come alive and text easier to read - ideal for business and education presentations.

15,000:1 Contrast Ratio

AMAZING COLOURS

The W501 incorporates BrilliantColor™ technology to produce stunningly bright images with perfectly balanced, life-like colours.

SYSTEM INTEGRATION AND CONTROL

Using the free Crestron Roomview software, multiple W501 can be monitored over LAN and also provide the user with an email message alert in case an error occurs or a lamp fails. Cut up to 30% from your energy bills using 24-hour automated power scheduling to ensure that projectors power off when not in use.

The web browser interface and full support for Extron's IP Link, AMX dynamic device discovery and PJ-Link protocols, allow almost all aspects of the W501 to be controlled across a network, reducing installation costs and keeping you in control, wherever you are. While RS-232 connectivity ensures legacy support for existing control systems.

Global monitoring of all AV devices

Track projector lamp life

Email alerts and instant notifications - help desk requests, service reminders, device failure or theft

Event Scheduling

EASY LAMP REPLACEMENT

In applications requiring smooth continuous operation, minimising service time is essential. The W501 lamp can quickly be replaced without the need to remove the projector from where it is installed.

+12V TRIGGER

Power on both your projector and screen at the touch of a single button. For ultimate convenience, connect an Optoma electric screen directly to your W501.

Download Crestron RoomView® Express software from:
www.crestron.com/getroomview

EXTRA FEATURES

Direct & Signal Power ON – Start up time can be significantly reduced if standby mode is bypassed, eliminating the need to use the 'Power' button on the remote control or the projector keypad.

Direct Power ON switches the projector on when the power cable is inserted into an active power outlet.

Signal Power On switches the projector on when an active VGA source is connected to the unit.

Key pad lock – once enabled prevents unauthorised adjustments ensuring the projector can only be controlled via the remote control.

Logo capture – customise your start up screen

Easy to use remote with laser pointer, mouse control and direct source selection

GREEN SOLUTIONS

ECO+ TECHNOLOGY FROM OPTOMA INCREASES OUR COMMITMENT TO REDUCING THE IMPACT WE ALL MAKE ON THE ENVIRONMENT

ECO+ MODE

Saving energy, saves money! Eco+ technology reduces the power consumption to as little as 30%. This intelligent feature also has a positive effect on the lamp life, increasing it up to 70% while lowering the total cost of ownership and reducing maintenance*.

Dynamically adjusts the brightness and power consumption

Bright scene
~100% Power consumption

Dark scene
~ 30% Power consumption

AUTO POWER OFF

There may be instances when the projector is left running when not in use. To help save energy if the projector is left running and no source is detected, the "Auto Power Off" feature automatically turns off the projector after a set period of time.

ECO AV MUTE

Stay in control of your presentation with the Eco AV mute feature. Direct your audience's attention away from the screen by blanking the image when no longer needed. This also instantly reduces the power consumption to 30%, further prolonging the life of your lamp.

Eco AV mute off
100% Power consumption

Eco AV mute on
30% Power consumption

ENVIRONMENTALLY FRIENDLY

To achieve the maximum lamp life, the projector should be operating in Eco+ mode and the auto power off feature should be enabled to automatically switch off the projector if it is accidentally left on. Enabling the <0.5W standby mode ensures the minimum energy consumption when the projector is not switched on.

We know that improving our products is the best way to reduce our impact on the environment. That's why at Optoma, we design our products to have a long usable life, use fewer materials, ship with the minimum packaging and be free of all possible toxic substances. Naturally, energy efficiency and being recyclable are built in at the design stage. With each new product, we strive towards minimising our environmental impact. For full details of Optoma Project Green please visit our website.

W501 SPECIFICATIONS

Native Resolution	WXGA (1280x800)
Display Technology	0.65" WXGA, DC3 chip DLP® Technology by Texas Instruments
Brightness - BRIGHT mode¹	5000 ANSI Lumens
Contrast	15,000:1
Noise Level	27dB (Eco* mode min)
Lamp Life²	4000 hr Eco* Mode / 2500 hr Bright Mode
Projection Lens	Throw Ratio 1.45~2.17:1 Focus / Zoom Type Manual Focus / 1.5x Manual Zoom F Number 2.42~2.98 Focal length 20.77~31.13 mm
Projection Distance	1.2 - 10m
Image Size	0.76 - 7.62m (30" - 300") Diagonal 16:10
Offset	112% ±5%
Lens Shift	+20% Vertical
Weight / Dimensions (W x D x H)	4.5Kg / 386 x 280 x 162mm (inc. feet)
Remote Control	Full function remote with laser pointer, mouse control and direct source selecting
INPUTS	HDMI (1.4a 3D support) DVI-D (HDCP supported) 2 x VGA (15 pin D-Sub) S-Video (4 pin Mini DIN) Composite (RCA) USB-B (Display) 2x USB-A (Reader / WiFi) 3x Audio In (3.5mm jack / RCA)
CONTROL	RJ45 (Crestron/Extron/PJ-Link/Telnet) [Operation during standby mode - ECO standby must be set to off]
OUTPUT	VGA Out (PC monitor loop-through) +12V trigger (3.5mm jack) Audio Out (3.5mm jack) USB (Remote Mouse)
Audio	30W (2 x 15W)
Aspect Ratio	16:10 native, 4:3/16:9 compatible
Keystone Correction	Vertical ±40°
On Screen Display	18 Languages: English, German, French, Italian, Spanish, Portuguese, Polish, Dutch, Russian, Finnish, Swedish, Greek, Norwegian/Danish, Hungarian, Czech, Turkish, Arabic & Farsi
Compatible Resolutions	UXGA, SXGA+, HD, WXGA, XGA, SVGA
2D Video Compatibility	PAL SECAM 576i/p, NTSC 480i/p, HD 720p/1080i/1080p
3D Video Compatibility	Mandatory HDMI 1.4 3D formats, 120Hz frame sequential (up to 720p)
3D Viewing	Requires Optoma DLP® Link™ active shutter glasses – sold separately
Uniformity	85%
Displayable Colours	1.07 Billion
Horizontal Scan Rate	15 - 91kHz
Vertical Scan Rate	24 - 120Hz
Power Supply	100 - 240V, 50 - 60Hz
Power Consumption	345W Bright mode, 279W Eco mode <0.5W standby mode 325W ECO mode <0.5W Standby mode
Security	Kensington Lock Port, Password Protection, Keypad Lock, Security Bar
Standard Accessories	AC power cord, VGA cable, Infra-red remote control, Batteries x 2, Quick start card, WEEE card, Warranty card
RoHS	Compliant
Lamp Warranty	6 months or 1000 hours - whichever comes sooner
Warranty	Warranty may vary by country. Please see www.optoma-europe.com or ask your local supplier for details
Colour Guarantee³	5 Years

150	3.23	2.02	4.68	7.01
200	4.31	2.69	6.25	9.35
250	5.38	3.37	7.81	11.68
300	6.46	4.04	9.37	14.02

For guide purposes only

W501 is capable of 4:3 / 16:9 aspect ratio projection. When projecting a 4:3 / 16:9 image the image sizes, screen height and offset information will differ from the above.

Optoma Europe Ltd.

42 Caxton Way, Watford Business Park, Watford, Hertfordshire, UK. WD18 8QZ

www.optoma.co.uk

Power consumption values listed are typical during normal use. Maximum power consumption values are approximately 10% higher. ¹Brightness and lamp lifetime will vary depending on selected projector mode, environmental conditions and usage. As is common with all lamp based projectors, brightness will decrease over the lamp lifetime. ²Typical lamp life achieved through testing. Will vary according to operational use and environmental conditions. ³Optoma guarantees that in normal use, Optoma DLP® colour quality will be indistinguishable from when new. Exclusions: (a) Guarantee is voided if the projector is subject to damage through misuse. (b) Guarantee may be void in industrial or commercial entertainment environments where dust or smoke is excessive (c) Guarantee will not apply if lamp brightness is below 50% due to wear or if the projector is not working due to other faults. (d) Over time worn lamps within all projector types will show a slight colour variance. Copyright © 2013, Optoma Europe Ltd.
