CRS-AOCH/CLR/60

Rental & Staging Active Optical 4K
High-Speed HDMI Cable

| HDMI | 4K/60 UHD (4:2:0) | 4K/60 UHD (4:4:4)

CRS-AOCH/CLR/60 is an active optical HDMI cable for 4K@60Hz (4:4:4) resolutions over distances up to 100m (328ft). Built with a TPU-rated (thermoplastic polyurethane) jacket that has excellent abrasion resistance, tensile strength and high tear resistance, this cable can withstand the most demanding conditions in rental, staging and production setups. And it is thinner, lighter and more flexible than copper cables.

CRS-AOCH/CLR/60 includes transparent EDID, HDCP, and HBR support and reduced risk of EMI and RFI interference for critical AV installations. The cable's HDMI ends are color coded (green for source and red for display) to prevent installation errors
