PRO SERIES

Digital Signage

Wide range of configurations

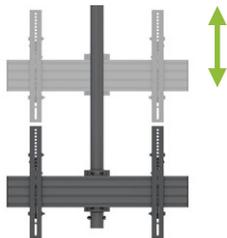

Pro Series is a Digital Signage product series, that can be configured to Ceiling Mounts, Floor to Ceiling Mounts, Menu Boards or Wallmounts. With its modular construction install-

ers have vast possibilities to change, update and reconfigure its design if ideas change. Over time the Pro Series installation can be combined into a wide range of new configurations.

Precision leveling

Each mounting bracket allows for micro height adjustments to be made to ensure your screens are levelled and perfectly aligned.

Extendable Height

The extendable poles allows you to position the center of the screen mounting plate no any height limitation. For tighter spaces, just with single pole to achieve a distance of 80cm.

Easy Tilt

Tilt the mounting brackets 5°, 10° or 15° forward to improve line-of-sight while maintaining alignment between your screens. To compensate for potential lean, the brackets can also be angled up to 6° backward.

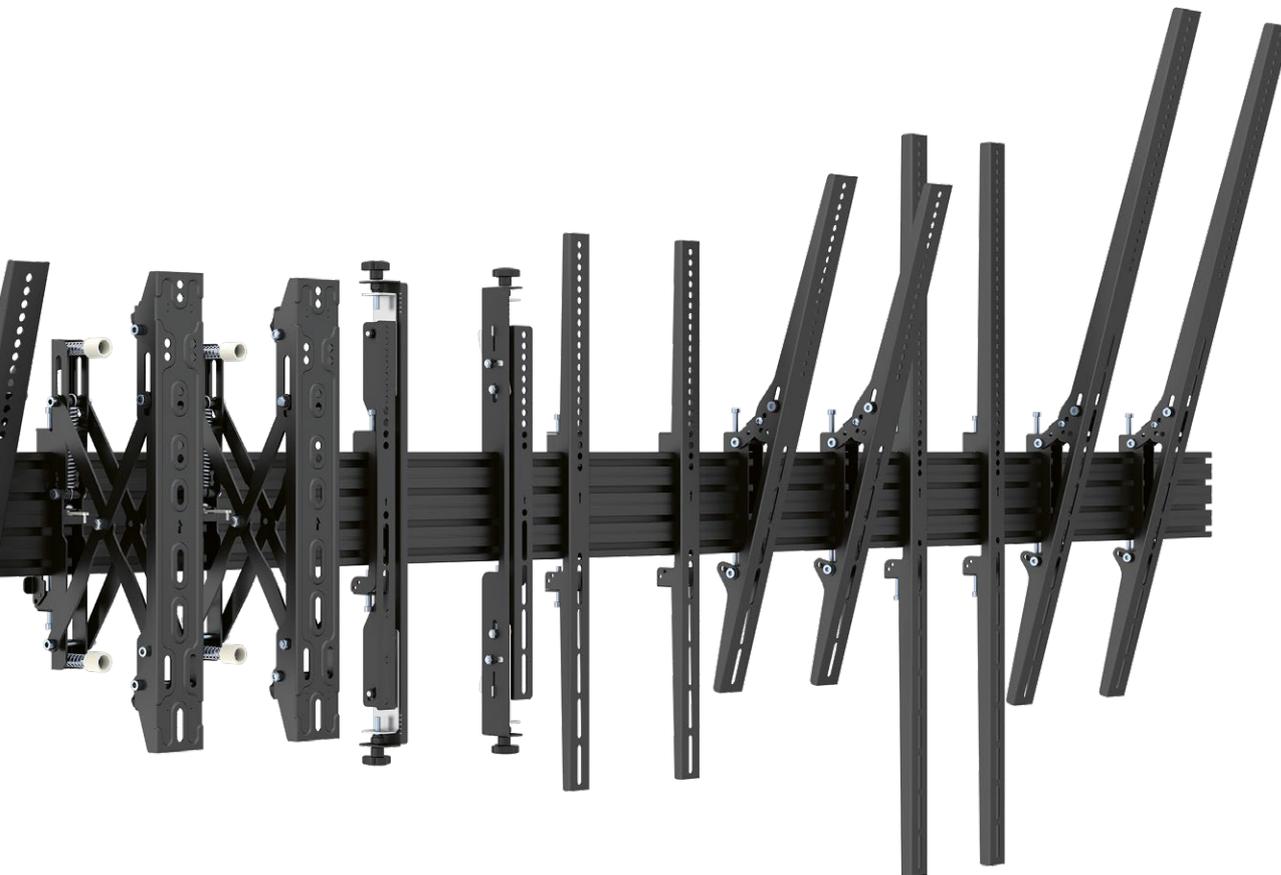

Modular Design

Available in a wide range of models, Digital Signage ceiling mounts support single to 18 screens weighing up to 30kg each. Their modular design allows for additional extrusions to be added to accommodate screens with wider VESA patterns, or to connect multiple units together.

Selected models are TUV approved

Cable Management

The extension pole's hollow core provides an unobstructed path to route your cables, while an opening in the mounting plate allows them to continue through the ceiling for a truly professional setup.

Easy Installation

To reduce strain, Digital Signage Mounts use lightweight ceiling plates that are installed independent of the rest of the mounting system. Simply slide each extension pole into place and secure it to complete the installation.

Flexible floor mounting

Designed to service a variety of freestanding solutions Pro Series can cater most ideas; wheelbased, floorbased or bolted directly to the floor. Ideal for the heavy duty multi-screen setups. Aesthetically pleasing with premium quality finish.

Displays or LED panels

As Multibrackets Pro Series line up is a truly universal mounting system it makes it compatible with various LED panels. Samsung, LG, Philips and other brand names can use Pro Series set ups in most formats one would need; Ceilingmounted, Wallmounted, Wheelbased, Freestanding and bolted down.

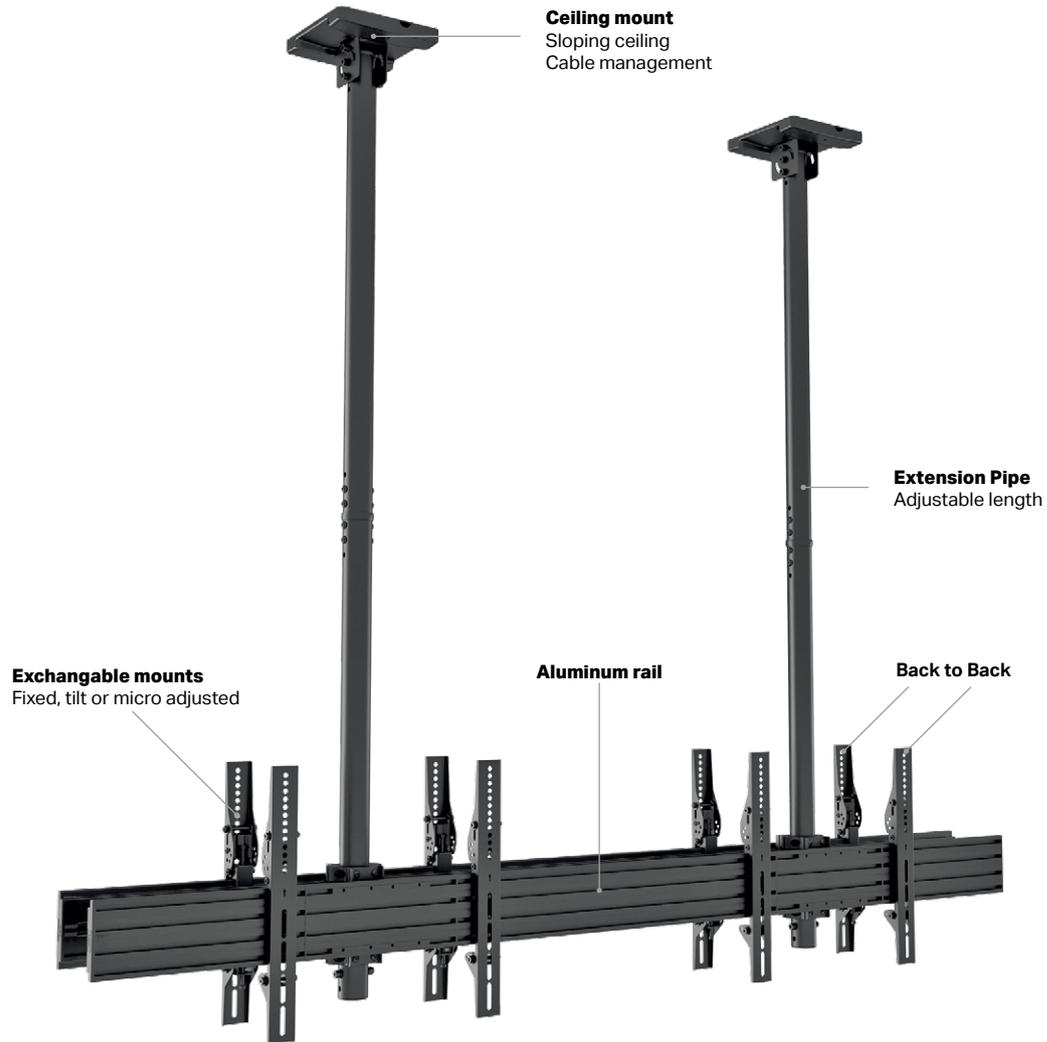

Pro Series MBC4U in a Volvo Showroom in Stockholm.

Pro Series Ceiling mounted solutions

Great for installers and digital signage installations. Our ceiling mounted solutions make it possible to construct single, dual or video walls in prominent locations where

walls aren't available. Comes in a variety of arrangements. Our Ceilingmounts are designed to deliver a simple solution for any digital signage installations involving multiple commercial

displays 32"-100". Perfect for many commercial installations the space saving design ensures the very best installer experience.

Pro Series

Wall mounted solutions

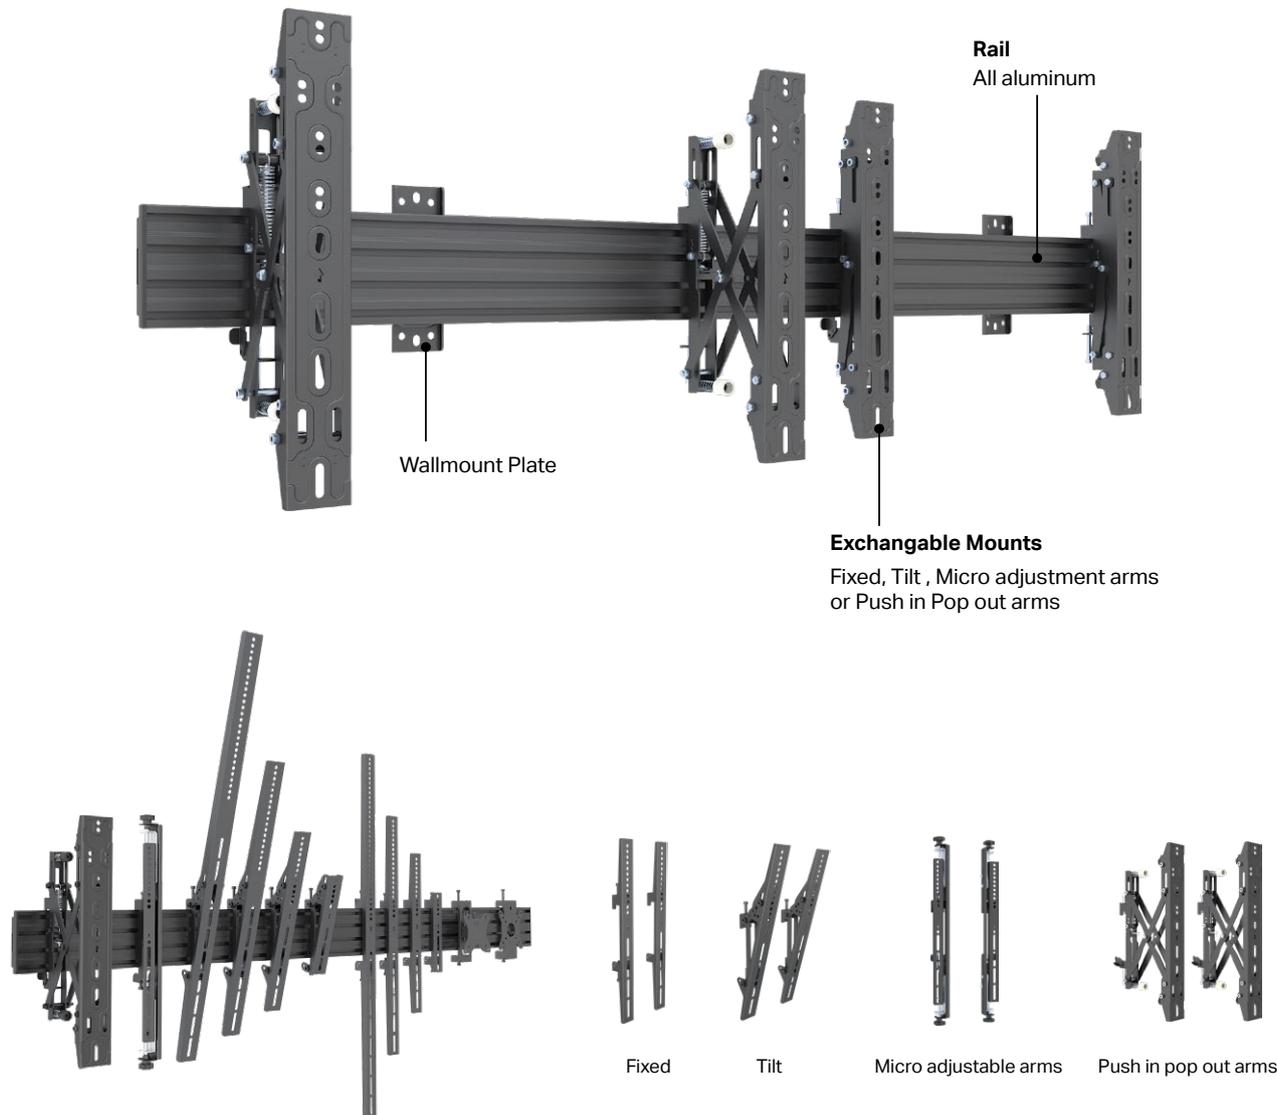

Our Pro Series Wallmounts can be used as menu boards or signage wallmounts. They offer a perfect display positioning and flexible adjustments. The single horizontal extrusion with

optional push in pop out and depth adjustment aligns the displays very quick even on irregular mounting surfaces and allows easy access behind the displays for servicing.

Build Pro Wallmount video walls

For screen in a row the Pro Series now can offer you a simple way to get perfect display positioning and a choice of bracket and adjustment solutions that works after a set standard. Ensuring the very best installer experience a

single aluminum extrusion rail is used with either fixed, tilt or push in pop out brackets that aligns the screens quick and efficiently.

A wide variety of arms:

- Push in pop-out:** 400mm
- Tilt:** 200/400/600/900mm
- Fixed:** 200/400/600/900mm
- Micro adjustable:** 400/ 600mm

Micro adjustable

Pro Series Wallmounts with micro adjustable

With the built in fine tune adjustments each of the M Wallmount Pro Micro Adjustable Black can be adjusted individually to match "its neighbouring screens". With its built in simple to reach knobs, the screens can be adjusted in depth, side and height. What before could take hours for an installer to measure and reinstall, is now fixed in a matter of minutes, Truly an

installers dream come true. Designed with our Scandinavian heritage in mind. Providing a clean Nordic look each part and detail serves its purpose. The result is a sleek Nordic solution emphasizing quality and function. Used in a variety of environments this ceiling mount is truly versatile and is made of the highest quality materials.

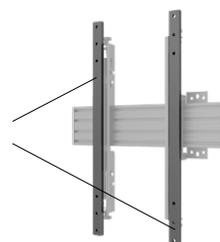

Easy-access to your after-service

Our Micro adjustable wall-mounts also creates easy-access to a display to quick and safe serviceability for sensitive screens with mm precision. This is often one of the major

functions needed when building a video wall mounting solution or when integrating a single screen into the wall.

Pro Series Wallmounts From Wall / Wall to Wall

Inform with high visibility

In the need of solutions to mount displays in a perpendicular position to a wall? The M Pro Series From Wall and Wall to Wall models are our innovative interior designed Pro Series solutions that offers high

visibility in open areas such as hallways, concourses, aisles and office spaces. The bracket mounts vertically so that the display is presented perpendicular to walls or between two walls. The clean and simple

Scandinavian design has a durable construction and is very easy to install, a complete set of hardware is included. The M Pro Series From Wall and Wall to Wall series is a single or double sided solution.

This digital signage installation makes it easy to keep moving crowds informed and this type of fixture is an ideal way to display high visibility wayfinding or directional information in high traffic areas.

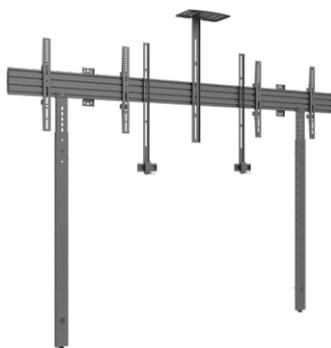

Pro Series Collaboration Video conference

With proper videoconferencing you can expand your collaboration efforts. Use video conferencing to meet face-to-face over distance, helping to build trust and speed decision mak-

ing. You will also reduce travel costs. To be able to work from anywhere, interact with peers around the world, and attend online training sessions over video. With Multibrackets Pro

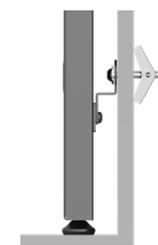

Series Collaboration solutions you will simplify video conference for your meetingrooms, offices and optimize communication with people anytime, anywhere.

Multibrackets Pro Series™ - Video Wall Mounting System

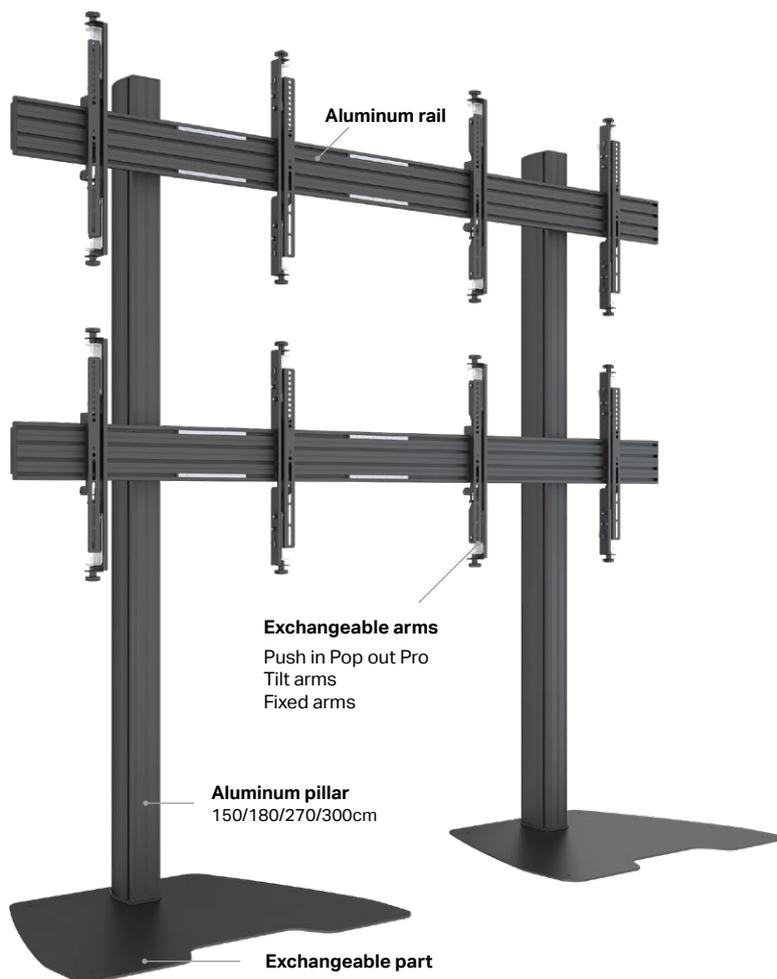

Freestanding video walls

Construct video walls in prominent locations

Pro Series Video Wall Mounting Systems handles both landscape or portrait arrangements of displays to fit any application. There are multiple screen array configurations possible, and its flexible just build and add after time or as your needs change. Most displays between 32" to 65" can be used. Set the height based on the 180/270/300cm

high columns made out of highest-grade aluminum. Its easy to change height and it is possible to set or reset height to provide a great viewing angle for both a sitting and a standing audiences. A movable wheelbase or floor based directly on the ground makes these video walls optimal for presentations, trade shows, stores or office entrances.

This is a perfect solution for customers who need a mobile or stationary presentation system for VTC, digital signage applications, and more. With the right combination of durability and serviceability, these videowalls provide a standardized and cost-efficient solution designed to fit most applications or environments.

Flexible & robust

Add or delete displays anytime or per occasion. M Pro Series freestanding videowalls allows videowall to be moved into any application. The high quality construction makes the line perfect for rental or short term pop up installations. Create a permanent bolt down solution when a wall isn't available. Possibility to align displays with independent height, depth and lateral shift adjustments.

Highlights:

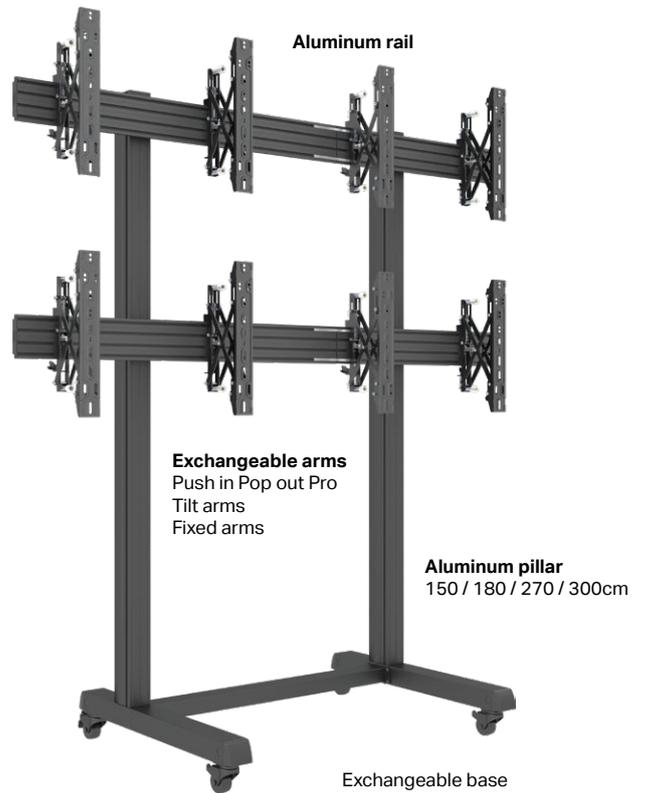

- **Floorbase, floormount or wheelbase**
- **Permanent bolt-down possible**
- **Integrated cable management**
- **Change design after new needs occur**

Pro Series Floorstands Free standing

Create your own video wall and interact with the consumer

Multibrackets takes video wall carts to a new level. Designed with the unique Pro Series modularity, any video wall cart configuration allows the user to create a flawless video walls with a wide variety of screens. These Video Wall Carts offers an multiple-point micro-adjustment arms to create a seamless

alignment without the need of tools. With lockable casters, the cart becomes secure for safe and easy movement over various flooring surfaces. Designed for a quick set-up and tear down. Built in cable management creates a sleek appearance for any application.

M Pro Series Enclosures

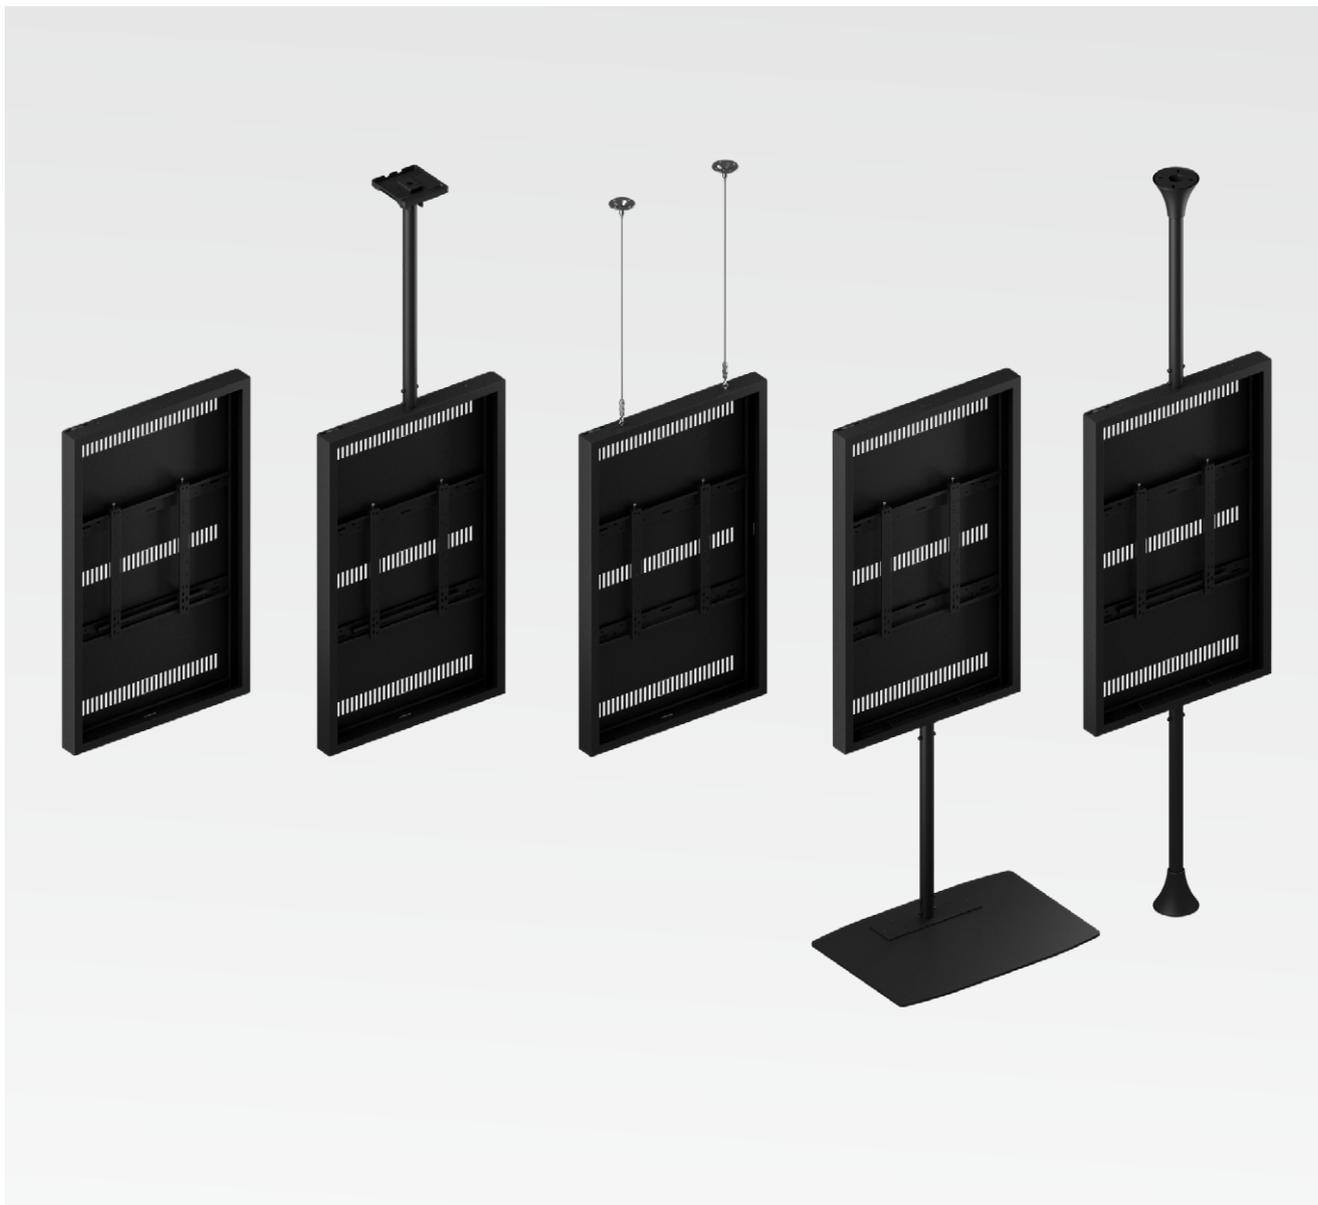

Pro Series Enclosures

Wallmounts / Ceiling mounts / Floor to ceiling / Wire / Floorstands & mounts

A selection of our enclosures and totems

Create a minimalistic look and choose to mount in both Portrait or Landscape position. Multibrackets® enclosures are one of the most versatile to date. Choose between screen sizes and colors. These enclosures include after adjustment possibilities and can be used for most brands of signage displays on the market. With a

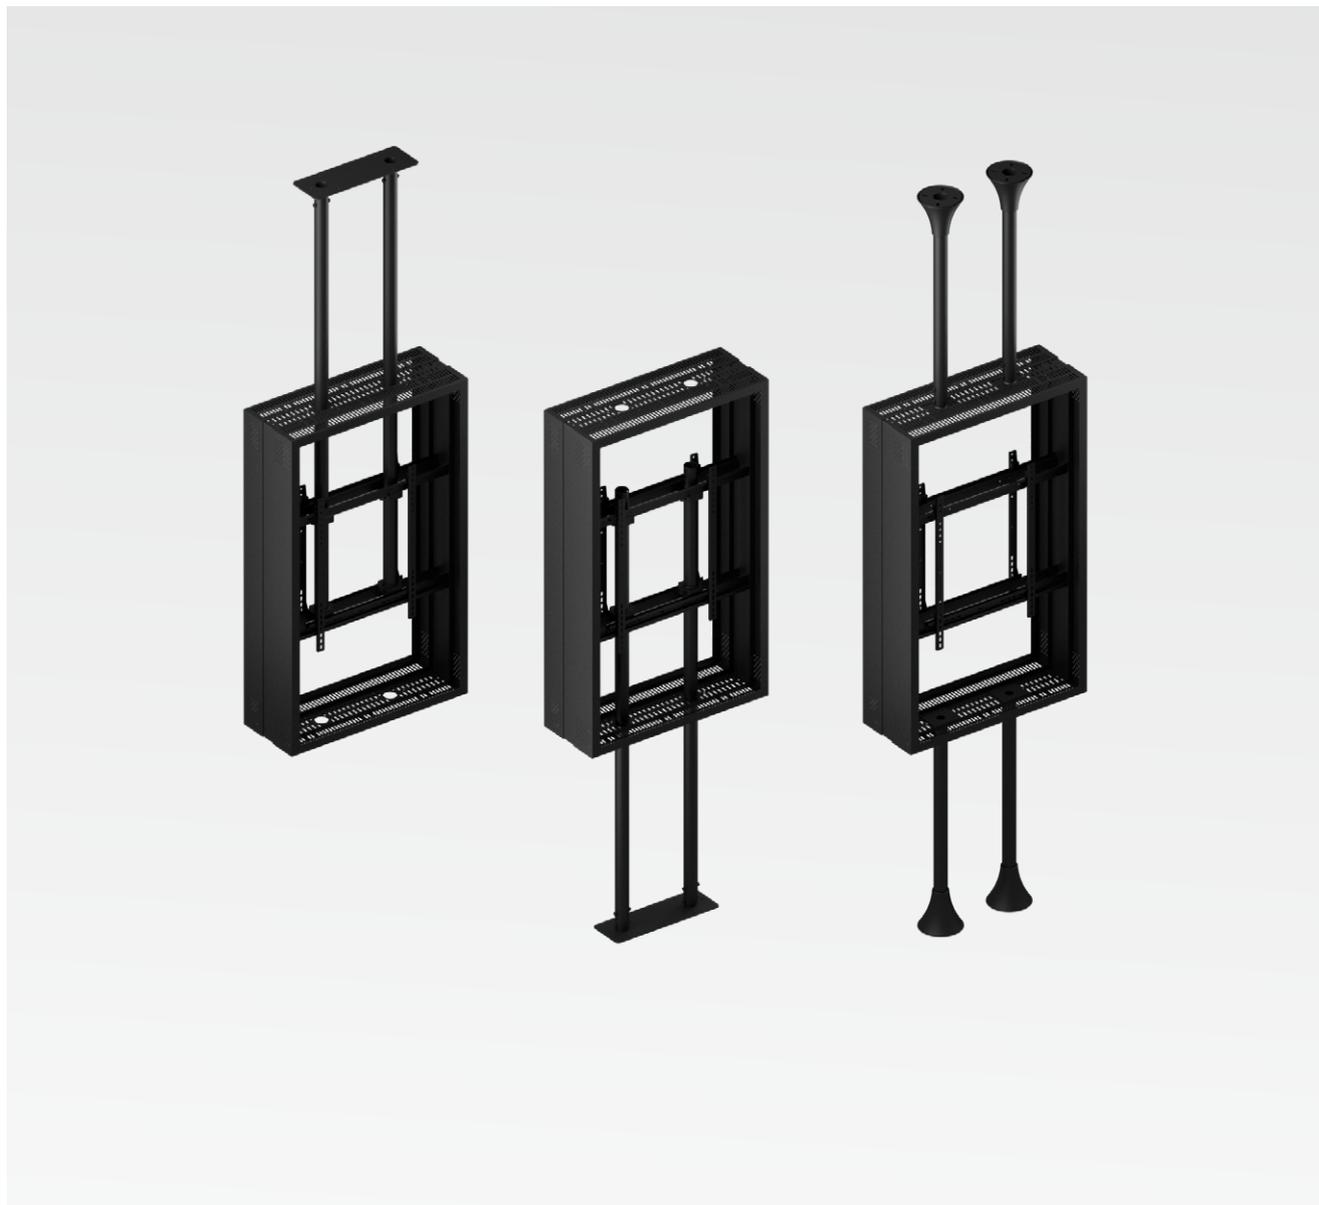

smart thermal management, this solution can fit more brands as well as creating thermal management second to none. These clean styled black Pro Series Enclosures brings new flexibility to the digital signage enclosure market while maintaining a sleek aesthetic to complement a variety of environments. A depth

adjustable exterior frame allows for a variety of displays to be used. Reversible hinges help avoid installation and service obstructions, and the exclusive design. Unparalleled service and maintenance access. Integrated passive cooling vents with active thermal management options. Tamperproof security

hardware protects technology investments. Blends in perfectly in most environments. Added its ingenious design makes many smart options available right away or after time, mounting solutions with wire function, floor to ceiling or floor stand and ceiling mounting is available.

B2B Enclosures

Ceiling mounts / Floor mounts / Floor to ceiling

Pro Series Back to Back Enclosures

Ideal for retail and quick service restaurants, Multibrackets floor-to-ceiling wire mount system is a sleek solution that maximizes aesthetics while minimizing footprint. The MBFCW2U+ supports both portrait and landscape orientations, with the option to add a back-to-back displays. Wire floor to ceiling range is 6 meters. Designed to

make a sleek and well-designed almost invisible impression this mount allows companies to create a platform for eye catching content delivery. Still this wire based system is both discreet but powerful. Coming from the Pro Series range these wire based products are installer friendly. This mount is suspend-

ed on high tensile steel wire, which is a highly secure and stable foundation for displays up to 65" (max weight 25kg). There is the ability to position the screen at any point along the cable length, plus the choice of having the display in either landscape or portrait position Our M Pro Series Wire based system

will make an incredibly versatile solution that can be adapted to suit a wide range of both retail and commercial applications.

Pro Series LED solutions

Supporting all major brands and mounting solutions

Inspired by AV installers

Pro Series Control rooms

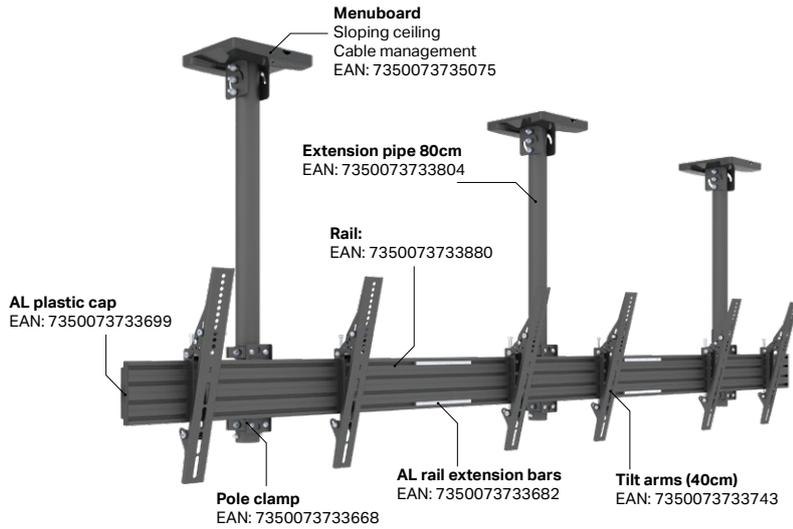

Multiscreen display and monitor mounting for control rooms

Multibrackets Pro Series acts as the perfect multiscreen holder or control room, studios and other situations where a large amount of displays are needed in a confined space. Pro Series offers an elegant solution for complementary large monitors in the control room environment.

“Pro Series lets you mix solutions, displays and monitors”

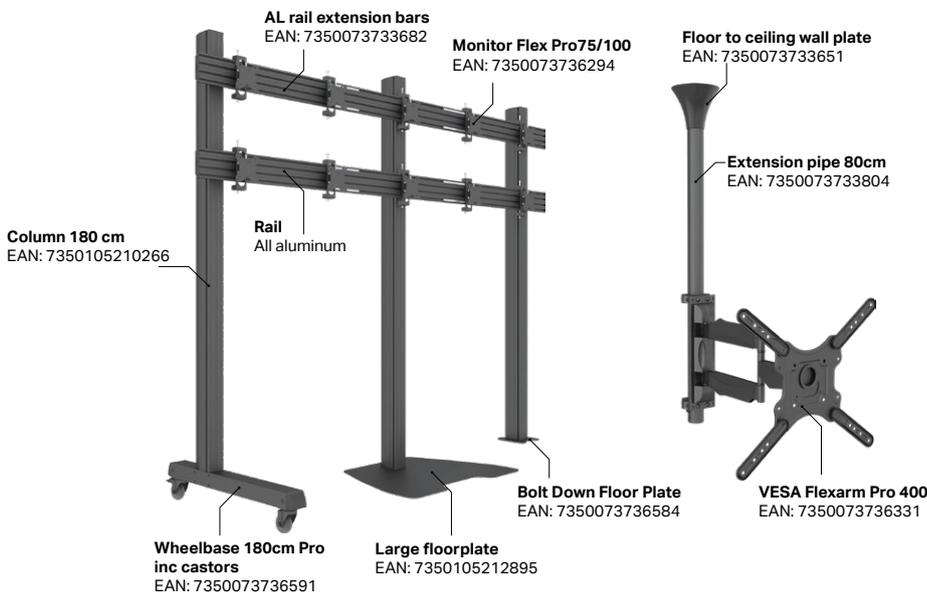

Highlights:

- Same mounting rail and system is being used
- Cable management keeps all cables in order
- Wide range of VESA handles all displays
- Easy to change design and outlook after time
- Industrial quality product range

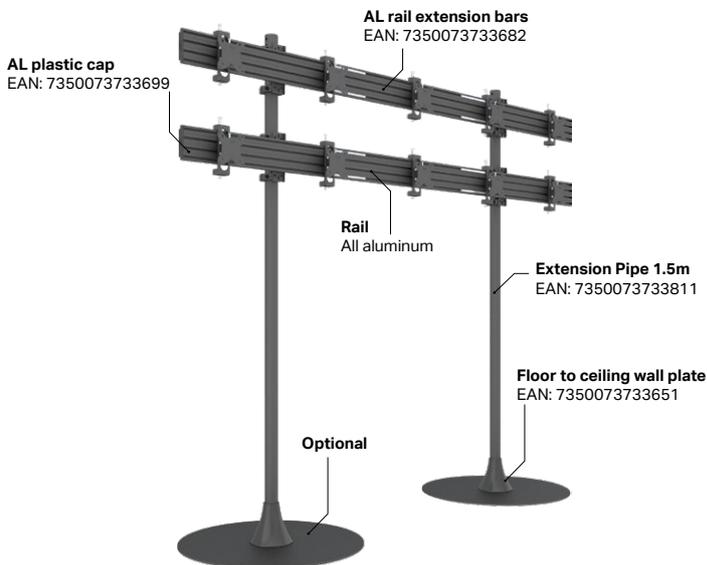

Pro Series Ceilingmounts

Our ceilingmount solutions are designed to handle both monitors and displays, mixed. This way you can create any type of combination you need for your installation. Any flexible monitor or display can use the Pro Series Ceilingmount Flexarms.

Pro Series Video/ Monitorwall

These videowalls use the unique Multibrackets Pro Series rail system. This system can handle anything from VESA 50 which are often found on smaller size monitors up to VESA 1000x600 used by large size displays. Combine large displays with monitors. Your imagination sets the limit.

Pro Series Monitorstands

If you plan to have a higher resolution monitorwall the Pro Series solves that as well. The railsystem uses monitormounts fixed or tilt and can then adopt close to any monitor on the markets. So wheter its small size 27" monitors or the new wide screen format monitors these monitorstands will solve your request.

Pro Series M Wallmount Column

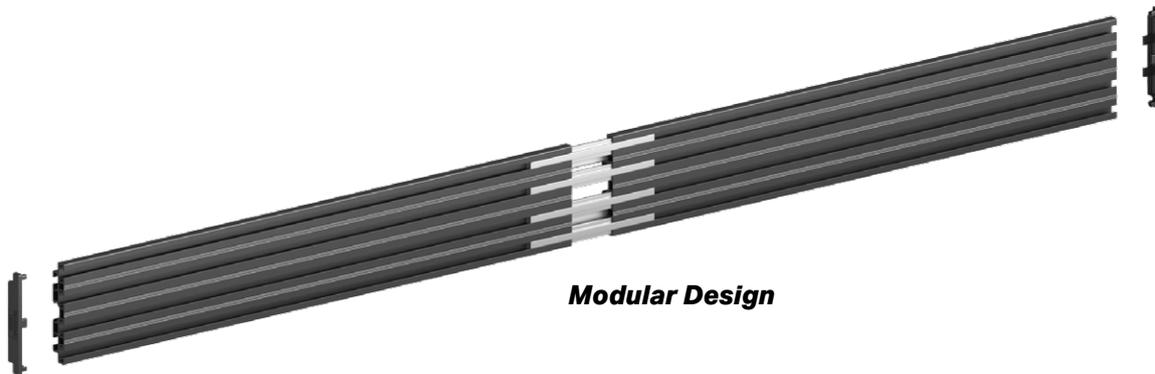

M Pro Series - Wallmount Column & Column Dual

Innovative - ready to be installed Single or Dual-Display Wallmount on a column. A mounting system which enables you to mount displays on columns without drilling. This is a perfect indoor solution for mounting digital signage displays onto round columns.

These products offer safe and easy installation in landscape and portrait mounting. Ideal for stadiums, arenas, stores and anywhere else column-based mounting is preferred and provides a solution for attaching digital signage displays to various diameter columns.

PRO SERIES

M Pro Series Rails

Function and freedom for the installer

The Pro Series horizontal mounting rails are the central component of any Pro Series product whether it be wall-mount menuboard or a single screen ceilingmount. Made from high grade aluminium, the rail itself is sturdy yet lightweight and is designed to support a variety of interface arms and mounts, allowing monitors, screens and other AV equipment to be fitted onto the rail. The Pro Series Railsystem is versatile.

Our Rails are available in packaged solutions of lengths, 28cm, 48cm, 68cm, 100cm, 196cm, 348cm. It can be mounted on Pro Series columns, poles and wallbrackets. The Rails can be cut to shorter lengths as required or joined together using extension kits to reach the right length for your installation.
