

DIGITAL SIGNAGE
PRO SERIES

Modular Design – Limitless possibilities. Strong ties with major AV distributors and installers as well as industry leaders enable us to develop head-end system specific digital signage solutions to the market needs of your business. We strive to always create simple and intuitive wall mounting solutions for digital signage display setups as well as in-room installations. Our aim is to consistently find ways to improve on our digital signage product offering. Maybe it's time for your business to discover a new level of refinement with our Pro Series signage solutions.

PRO SERIES

Digital Signage

Wide range of configurations

Pro Series is a Digital Signage product series, that can be configured to Ceiling Mounts, Floor to Ceiling Mounts, Menu Boards or Wallmounts. With its modular construction install-

ers have vast possibilities to change, update and reconfigure its design if ideas change. Over time the Pro Series installation can be combined into a wide range of new configurations.

Precision leveling

Each mounting bracket allows for micro height adjustments to be made to ensure your screens are levelled and perfectly aligned.

Extendable Height

The extendable poles allows you to position the center of the screen mounting plate no any height limitation. For tighter spaces, just with single pole to achieve a distance of 80cm.

Easy Tilt

Tilt the mounting brackets 5°, 10° or 15° forward to improve line-of-sight while maintaining alignment between your screens. To compensate for potential lean, the brackets can also be angled up to 6° backward.

Modular Design

Available in a wide range of models, Digital Signage ceiling mounts support single to 18 screens weighing up to 30kg each. Their modular design allows for additional extrusions to be added to accommodate screens with wider VESA patterns, or to connect multiple units together.

Selected models are TUV approved

Cable Management

The extension pole's hollow core provides an unobstructed path to route your cables, while an opening in the mounting plate allows them to continue through the ceiling for a truly professional setup.

Easy Installation

To reduce strain, Digital Signage Mounts use lightweight ceiling plates that are installed independent of the rest of the mounting system. Simply slide each extension pole into place and secure it to complete the installation.

Flexible floor mounting

Designed to service a variety of freestanding solutions Pro Series can cater most ideas; wheelbased, floorbased or bolted directly to the floor. Ideal for the heavy duty multi-screen setups. Aesthetically pleasing with premium quality finish.

Displays or LED panels

As Multibrackets Pro Series line up is a truly universal mounting system it makes it compatible with various LED panels. Samsung, LG, Philips and other brand names can use Pro Series set ups in most formats one would need; Ceilingmounted, Wallmounted, Wheelbased, Freestanding and bolted down.

Pro Series MBC4U in a Volvo Showroom in Stockholm.

Pro Series Ceiling mounted solutions

Great for installers and digital signage installations. Our ceiling mounted solutions make it possible to construct single, dual or video walls in prominent locations where

walls aren't available. Comes in a variety of arrangements. Our Ceilingmounts are designed to deliver a simple solution for any digital signage installations involving multiple commercial

displays 32"-100". Perfect for many commercial installations the space saving design ensures the very best installer experience.

Back to back optional

Cable management

Landscape and portrait

Max load tested 5x

Micro adjustable

Starting from **1CU** to **9CUB2B**, using a total of 18 screens.

Pro Series Menu Boards Mounts ceilingmounted

- . Universal design suitable for all sized screens up to 100"
- . High-end aesthetics
- . Designed to handle landscape or portrait mounting
- . Brackets fixed, tilt or micro adjustable
- . Support a wide range of VESA 75/100/200/300/400/600/900
- . Built in levelling screws to adjust the screen height
- . Built in cable management
- . Add or change displays after time, Pro Series follows
- . Selected models are TUV certified

Flexible menu boards. Starting at 1U builds up to 10U's side by side, landscape or portrait.

MB2X1U with Dual Displays Landscape

Can be mounted on wall

Our Menuboard

Our Menuboard are great for installers and digital signage installations. Either ceiling mounted or wall mounted.

The ceiling mounted solutions make it possible to construct single, dual or video walls in prominent locations where walls aren't available. Comes in a variety of arrangements.

Our menuboard are designed to deliver a simple solution for any digital signage installation involving multiple commercial displays 32"-100".

Perfect for many commercial installations the space saving design ensures the very best installer experience. Mount screens in landscape or portrait

orientation with the option for tilt adjustment for enhanced overhead visibility, perfect for public places, food restaurants or a reception.

As part of the Pro Series, these menuboard can be combined with other Pro Series products and used in any possible configurations meeting your re-

quirements. High end aesthetic and flexibility to use fixed, tilted or micro adjustable brackets makes fitting screen to screen a dream.

All arms feature levelling screws to adjust the screen height.

Menu boards that holds perfect position and quality over time, Great for installers!

Pro Series Menu Board Mounts **Wallmounted**

Multibrackets line up of Wall mounted Menu Board Mounts are designed to create a seamless mounting surface through connecting displays side by side on the M Pro Series rail system. The single horizontal aluminum rail extrusion with depth

adjustment aligns the screens quickly even on irregular mounting surfaces and allows easy access behind the displays for servicing. Fixed/tilt/ fine tune bracket options from VESA 50 to VESA 900 allows close to all displays to be tilted at the same angle

with ease, creating a flawless alignment. These Menu Board Mounts allow for tool-less height and depth adjustment to alleviate issues with wall imperfections. Delivered with built in cable management, reducing installation time and cost. Available in landscape

and portrait design options, standard landscape or portrait designs for 27" to 65" displays or customs sized for larger size displays.

Pro Series

CCTV / Camera Ceiling Mounts

For affordable and flexible ceiling installations

The Pro Series line up of CCTV Camera mounts is ideal for retail and commercial environments, where a fixed dome or a fixed box camera need to be installed under high ceilings. The telescopic functionality allows the installer to easily and securely adjust the length of extension between 1m to 6m. The base

of the mount is compatible with the Pro series rails and other accessories. The lightweight and robust ceilingmount can also be installed horizontally on walls as the ceilingmount can be turned 90 degrees when being mounted, making it perfect for an on wall or sloping ceiling installation.

Highlights:

- Works with most CCTV and dome cameras solutions
- Suitable for indoor use
- Perfect for retail and commercial environment
- Extendable between 1.5 to 6 meters
- Lightweight and robust
- Available in black or white colors

**Pro Series creates
magic results**

Pro Series

Wall mounted solutions

Our Pro Series Wallmounts can be used as menu boards or signage wallmounts. They offer a perfect display positioning and flexible adjustments. The single horizontal extrusion with

optional push in pop out and depth adjustment aligns the displays very quick even on irregular mounting surfaces and allows easy access behind the displays for servicing.

Maximize flexibility Pro Series Wallmounts

For screen in a row the Pro Series now can offer you a simple way to get perfect display positioning and a choice of bracket and adjustment solutions that works after a set standard. Ensuring the very

best installer experience a single aluminum extrusion rail is used with either fixed, tilt or push in pop out brackets that aligns the screens quick and efficiently.

Pro Series Wallmounts

Micro adjustable

With the built in fine tune adjustments each of the M Wallmount Pro Micro Adjustable Black can be adjusted individually to match "its neighbouring screens".

With its built in simple to reach knobs, the screens can be adjusted in depth, side and height. What before could take hours for an installer to measure and reinstall, is now fixed in a matter of minutes, Truly an installers dream come true.

Designed with our Scandinavian heritage in mind. Providing a clean Nordic look each part and detail serves its purpose. The result is a sleek Nordic solution emphasizing quality and function.

Used in a variety of environments this ceiling mount is truly versatile and is made of the highest quality materials.

Easy-access to your after-service

Our Micro adjustable wall-mounts also creates easy-access to a display to quick and safe serviceability for sensitive screens with mm precision. This is often one of the major

functions needed when building a video wall mounting solution or when integrating a single screen into the wall.

PRO SERIES

M Pro Series Rails

Function and freedom for the installer

The Pro Series horizontal mounting rails are the central component of any Pro Series product whether it be wall-mount menuboard or a single screen ceilingmount.

Made from high grade aluminium, the rail itself is sturdy yet lightweight and is designed to support a variety of interface arms and mounts, allowing monitors, screens and other AV equipment to be fitted onto the rail.

Our Rails are available in packaged solutions of lengths, 28cm, 48cm, 68cm, 100cm, 196cm, 348cm. It can be mounted on Pro Series columns, poles and wallbrackets.

The Rails can be cut to shorter lengths as required or joined together using extension kits to reach the right length for your installation.

Pro Series Wallmounts From Wall / Wall to Wall

Inform with high visibility

In the need of solutions to mount displays in a perpendicular position to a wall? The M Pro Series From Wall and Wall to Wall models are our innovative interior designed Pro Series solutions that offers high

visibility in open areas such as hallways, concourses, aisles and office spaces. The bracket mounts vertically so that the display is presented perpendicular to walls or between two walls. The clean and simple

Scandinavian design has a durable construction and is very easy to install, a complete set of hardware is included. The M Pro Series From Wall and Wall to Wall series is a single or double sided solution.

This digital signage installation makes it easy to keep moving crowds informed and this type of fixture is an ideal way to display high visibility wayfinding or directional information in high traffic areas.

Multibrackets Pro Series™ - Video Wall Mounting System

Freestanding video walls

Construct video walls in prominent locations

Pro Series Video Wall Mounting Systems handles both landscape or portrait arrangements of displays to fit any application. There are multiple screen array configurations possible, and its flexible just build and add after time or as your needs change. Most displays between 32" to

65" can be used. Set the height based on the 180/270/300cm high columns made out of highest-grade aluminum. Its easy to change height and it is possible to set or reset height to provide a great viewing angle for both a sitting and a standing audiences. A movable wheelbase

or floor based directly on the ground makes these video walls optimal for presentations, trade shows, stores or office entrances. This is a perfect solution for customers who need a mobile or stationary presentation system for VTC, digital signage applications, and more. With

the right combination of durability and serviceability, these videowalls provide a standardized and cost-efficient solution designed to fit most applications or environments.

Flexible & robust

Add or delete displays anytime or per occasion. M Pro Series freestanding videowalls allows videowall to be moved into any application. The high quality construction makes the line perfect for rental or short term pop up installations. Create a permanent bolt down solution when a wall isn't available. Possibility to align displays with independent height, depth and lateral shift adjustments.

Highlights:

- Floorbase, floormount or wheelbase
- Permanent bolt-down possible
- Integrated cable management
- Change design after new needs occur

M Pro Series Enclosures

A selection of our enclosures and totems

Create a minimalistic look and choose to mount in both Portrait or Landscape position. Multibrackets® enclosures are one of the most versatile to date. Choose between screen sizes and colors. These enclosures include after adjustment possibilities and can be used for most brands of signage displays on the market. With a

smart thermal management, this solution can fit more brands as well as creating thermal management second to none. These clean styled black Pro Series Enclosures brings new flexibility to the digital signage enclosure market while maintaining a sleek aesthetic to complement a variety of environments. A depth

adjustable exterior frame allows for a variety of displays to be used. Reversible hinges help avoid installation and service obstructions, and the exclusive design. Unparalleled service and maintenance access. Integrated passive cooling vents with active thermal management options. Tamperproof security

hardware protects technology investments. Blends in perfectly in most environments. Added its ingenious design makes many smart options available right away or after time, mounting solutions with wire function, floor to ceiling or floor stand and ceiling mounting is available.

Pro Series **10"-24" enclosures**

**Simplify small size signage installations
with a thin and easy-to-install enclosure.**

Experience the elegance of Multibrackets new indoor enclosures designed to support the latest LED displays. With an ingenious design these enclosures have a wide range of applications making them easy to install and maintain.

Present digital information indoor through Multibrackets Totem LED solutions

These days many installers get the request to promote content with exceptional clarity in any storefront window. Multibrackets Pro Series LED Totems brings the ideal digital signage mounting solution for stores.

This product can be easily mounted on a stand or hung from a ceiling, giving retailers more options for positioning.

The smart and functional design creates a clean look offers flexibility in how valuable floor space is designed and utilized.

This dedicated mount allows businesses to create a platform for eye-catching content deliveries on a minimalistic mounting solution. By many installers considered the ideal display and mount solution for store applications.

A minimum of visible cables and screws from the outside. With a multitude of installer friendly features including concealed cable management for a professional appearance.

This is an incredibly versatile solution that can be adapted to suit a wide range of both retail and commercial applications.

The Retail Experience 2.0

Customer behaviours are changing

The crises of recent years have led to dramatic changes in consumer behaviour. The retail chains will now have to work hard to meet the ever-changing customer experience requirements to stay relevant.

Multibrackets can supply all indoor and outdoor mounting equipment, for any project.

With the help of large LED displays and other display solutions there is an opportunity to update your market place completely. The opportunity to build a close experience with the customer is created through online and instore messaging. Multibrackets has an extensive group of competent employees who help give your business a complete - "Retail Experience 2.0".

We can also help find suppliers of complete solutions where we are a part. We help you win to win the battle for the customer as the competition for the customer increases, it is important for stores to distinguish themselves, create experiences you cannot get when you visit the company online. Engaging customers on site is the key to the future. The answer to the question of a new retail experience will in many respects be digital signage which now includes LED displays. A LED panel consists of a larger number of smaller led modules. These can be put together to form almost any shape. As the image has a high resolution, opportunities are created to build almost

any type of digital experience, mixing digital and physical that many have not seen the likes of. This also appeals to the group that shops online as you can add a dimension to the online experience that you don't get via a small screen at home or on a mobile phone.

Project start

Starting this type of project takes time and financial resources need to be set aside. Planning is crucial. Multibrackets cooperates with the market's leading suppliers of LED panels, we offer the mounting

Indoor LED

Outdoor LED

solutions. So regardless of the project, big or small with LED displays sitting on the ceiling, along the walls or in the shop window. Multibrackets assist in project and help tailor these solutions for each new project and each individual shop - completely individually. This is what we call: Multibracket Tailormade.

Customized for Sony, Vestel, BenQ, Hisense and others

Strong ties with major AV distributors and installers as well as industry leaders enable us to develop head-end system specific digital signage solutions to the market needs of your business.

We strive to always create simple and intuitive wall mounting solutions for digital signage display setups as well as in-room installations.

Our aim is to consistently find ways to improve on our digital signage product offering. Maybe it's time for your business to discover a new level of refinement with our Pro Series signage solutions.

Pro Series Build Control rooms

Multiscreen display and monitor mounting for control rooms.

Highlights:

- Same mounting rail and system is being used
- Cable management keeps all cables in order
- Wide range of VESA handles all displays
- Easy to change design and outlook after time
- Industrial quality productrange

Pro Series Ceilingmounts

Our ceilingmount solutions are designed to handle both monitors and displays, mixed.

This way you can create any type of combination you need for your installation. Any flexible monitor or display can use the Pro Series Ceilingmount Flexarms.

VESA Flexarm Pro 400
EAN: 735007373 6331

**Pro Series
Video/ Monitorwall**

These videowalls use the unique Multibrackets Pro Series rail system. This system can handle anything from VESA 50 which are often found on smaller size monitors up to VESA 1000x600 used by large size displays. Combine large displays with monitors. Your imagination sets the limit.

**Pro Series
Monitorstands**

If you plan to have a higher resolution monitorwall the Pro Series solves that as well. The railsystem uses monitormounts fixed or tilt and can then adopt close to any monitor on the markets. So wheter its small size 27" monitors or the new wide screen format monitors these monitorstands will solve your request.

**Everything starts with you.
For us to create great products it always
begins with putting you the user at the heart
of everything we do."**

Mission

We are on a mission to create products that are simple to install and use, that excites and solves our clients daily needs - everyday, all year around. Based in Stockholm, Sweden we design, develop and market AV Equipment. But we do it our way. Armed with a genuine passion for new technology and user centric innovation, we take a product and give it a little bit of Multibrackets magic!

About us

Founded in year 2000 we are a family owned business and represented in over 30 countries. Today we are considered one of the leaders in the rapidly changing environment of digital signage technology – together with our distributors we are providing hardware and services to enable the full value from idea to a ready product. With one of the most comprehensive product lines in EU we supply Audio Visual Equipment for every need. Multibrackets reputation for innovative products is well known.

Become a partner

Stay ahead of your competition – Let us help you become a partner. Simply send us an email on support@multibrackets.com or go to our webpage <https://products.multibrackets.com/en/contact> for a contact with us at Multibrackets and we will help you with a distributor's contact. We look forward to your email.

Sustainability

At Multibrackets we see sustainability like a journey. Being in the AV business means we have a responsibility to take care of the environment and everybody who plays a part in making our products. We are working hard to design sustainable products, minimize our impact on the environment, improve our sourcing and create a great workplace for our employees. Find out more about what we are doing and what we've already achieved on our web.
