## Professional Projector

Scissor Lift - SKU - SAPPL04

EAN Code 0797734154559

Made from the best materials and with the legendary Sapphire 3 year warranty you can be sure that you are making the right investment.

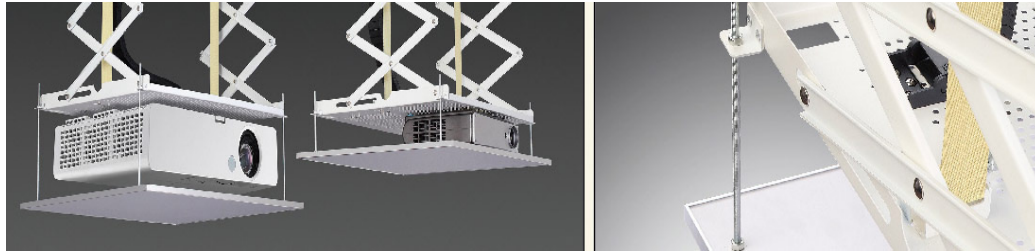

It is possible to have the projector inside if very small or if underneath there is a lot of flexibility. Please see table below.

Model SKU	Max drop from ceiling	Max height req in ceiling (mm)	Projector inside lift (mm)	Projector under lift mesh platform (mm)	Maximum weight
SAPPL04	1000mm	190mm	300 (w) x 340 (L) x 130 (H)	500 (W) x 500 (L) x 200 (H)	25kg's

The projector can fit in many locations under the mesh grill and we supply a range of bolts to fit the thread under most projectors on the market.

## Professional Projector Scissor Lift

### Key Points of Sapphire Projector Lift

- Strong and well designed product with 3 year warranty.
- Can be fitted into a small space. If you have a very small projector it will even fit into a standard 7 inch ceiling joist if you have 12.5mm plaster-board below..
- The larger projectors fit under the grid and are fitted by bolts through the wire mesh plate (included).
- We supply a manual switch and a UK plug. This is really to enable testing as you will probably want to connect to your control system or request our upgrade box RFRRemotepack which will give you RS232 and closed contact plus a radio remote control.
- Smart bottom plate that requires no decoration and will blend in with most suspended ceiling tiles - size is 595mm x 595mm.

### Easy Up/Down Limit Adjustment

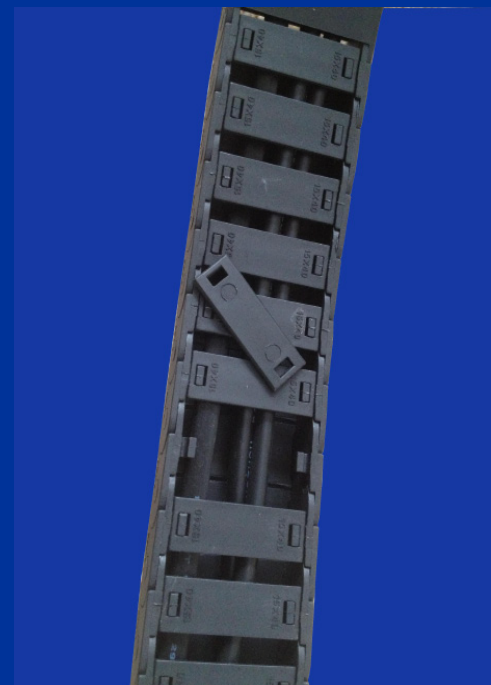

### Wall Switch

The projector lift is supplied with a lead to a wall switch and then to a UK three pin plug as standard. If you are going to use your own control system you can cut this out after fitting and testing.

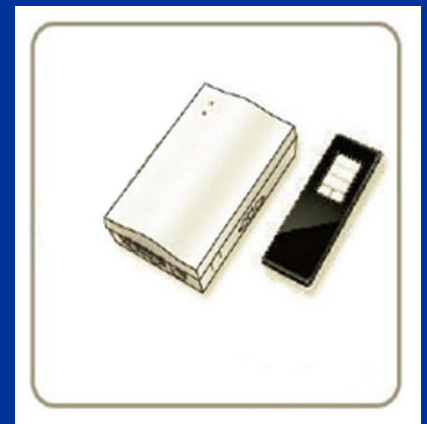

If you want we can fit a remote control with RS232 and closed contact as an option SKU: RFRRemotepack

Cable management is easy with the special spiral which can be opened easily if you wish to add additional cables for your requirements.

### Optional Extras

SKU - RFRRemotepack or  
IRRemotepack (infra red)

Because of the many different installation environments we do not supply the ceiling fixings to hang the lift from the ceiling above.
